ACKNOWLEDGEMENT

Faculty of feeling in human nature has ever been beyond description. The valuable help and guidance that various persons have extended to me will ever be beyond my dictionary.

I express my deep sense of gratitude with reverence to my supervisor Dr. Naresh Kumar, Principal, C.C.R.(P.G.) College Muzaffarnagar, (Formerly Reader, Department of Botany, D.A.V. P.G. College, Muzaffarnagar) for his sagacious guidance and intellectual stimulation throughout the present study. His scholarly suggestion, immense interest, ungreedding help and affectionate behaviour have been a fountain of great inspiration to me. I have been infected with work culture during a short span of association. So, I am highly indebted to him. Moreover, his personal charm and warmth could be a source of inspiration and pleasure to anybody who is lucky enough to interact with him. I enjoyed my association with him to the extent that I consider this period a fortunate and unparallel event in my life.

I esteemed it a privilege to record my profound sense of gratitude to Dr. M.P. Sawhney, Principal D.A.V. P.G. College, Muzaffarnagar and Dr. Y.P. Jain, Head, Department of Botany, D.A.V. (P.G.) College Muzaffarnagar, but my vocabulary falls short. Their insightful guidance, love and affection have given a long way in preparing this manuscript.

I place on record my gratitude to all the faculty members of Department of Botany, D.A.V. (P.G.) College Muzaffarnagar, particularly Dr. P.S.Ratra, Dr. P.K.Aggarwal, Dr. T.V.S. Dhaka, Dr. S.K. Tyagi, Dr. R.S. Yadav and other staff members for their encouragement and academic support during the course of my research work.

I candidly feel that the words will hardly register the message of my indebtedness originating from the core of my heart to my Principal, Dr. P.K. Gupta, K.L.D.A.V. (P.G.) College, Roorkee and all my colleagues particularly Dr. B.L. Agarwal, Dr. M.P. Singh, Dr. Purnima Srivastava, Dr. Shalini Joshi, Dr. Manjul Dhiman, Dr. Mithlesh Kumari, Dr. Tanveer Alam and Dr. Shashi Tyagi for their encouragement and co-operation throughout.

Diction is not enough to express my unboundable gratitude to my beloved Ammi & Papa, my brothers Mr. Tazeem Ali, Mr. Tanveer Alam, Dr. Shahnawaz Alam, my sisters Ms. Shad Rani & Ms. Sheeba Alnoor for their love, blessings and inspiration which make it possible for me to reach this level. I am thankful to my beloved wife Fahmida for her support during this work.

In this scientific pursuit helping hands and moral boosting words of Mr. Kuldeep Baliyan, my bosom friends Mr. Asif Tyagi and Mr. Manoj
Kaushik had a significant role. I extend my sincere thanks to them for their ever ready gesture to help and constant encouragement throughout.

This acknowledgement would be incomplete without the mention of the constant encouragement and co-operation provided by my friends Mr. Mohd. Ali, Dr. Sultan Ali, Mr. Ajay Jain, Dr. Ritu Goel, Dr. Altaf Ahmad, Ms. Vandana and Ms. Shubhra Garg.

I appreciate the assistance and painstaking help rendered by Mr. Vineet and Mr. Irfan for typing this manuscript.

I owe a special debt of gratitude to Late Sri Rampal Singh, Chemist, Biogas plant, Shamli distilleries, Shamli for providing effluent and valuable suggestions rendered to me during the course of this research work.

Above all I am thankful to the ‘ALMIGHTY’, the ALLAH, whose blessings gave me impetus to achieve my target.

TANZEEM ALI
Sr. Lecturer
Department Of Botany
K.L.D.A.V.(P.G.) College, Roorkee
