Acknowledgement:

It is my privilege to express my sincere and profound gratitude to my supervisor Dr. C.M. Gupta, Director, CDRI, Lucknow, for his keen interest, valuable ideas and constant encouragement throughout my research training. I am highly motivated by his vast knowledge and scientific temperament. I have been fortunate to work under a visionary like him. I have always been inspired by his punctuality and enthusiasm.

I would like to thank and express my regards to Dr. V.K. Bajpai (Head, EM Unit) for allowing me to collaborate with him. I am indebted to him for being a source of encouragement.

I have been very lucky to work with Dr Amogh Anant Sahasrabuddhe, my senior. His in-depth knowledge, keen observation, immense ability in data analyses, helpful discussions and friendly behavior have helped greatly in carrying out my research work at every step. Not only his scientific skill but his knowledge on computer application helped me a lot during the whole study, especially while writing this thesis. I am also thankful to Neerja ji.

I extend my sincere thanks to Dr. Vinod bhakuni, H.O.D. of our division for his kind support throughout my research work.

I am grateful to the scientists of Molecular and Structural Biology Division, CDRI, Drs. PR Maulik, Ashish Arora, Saman Habib, Jimut Ghosh, Ramachandran Ravishankar and Imran Siddiqui for helping me whenever required.

I am thankful to Dr. Dinakar Salunke, NII (New Delhi); Dr. Vijay Chaudhary, Biochemistry Division, South Campus (New Delhi) for the N-terminal protein sequencing and sequencing of the gene, respectively.

I am especially thankful to Mr. RK Srivastava (Rajanji) for being a source of joy, encouragement. He has been very helpful in solving the technical problems and difficulties. I am also thankful to the technical staff of our division- Mr. Radheshyam Ram, Mr. JP Srivastava, Anupam Jain and Ruchir Saxena for their help in all the official and technical issues.

I am thankful to my lab mate Raza, Santaram, Satish, Prabodh and Upendar for creating a joyful environment in the lab and helping me at any time whenever required. I am also thankfull to my senior Amit sir and Sivaram ji. Though I spent a little time with them, I have learned a lot from them during the early stage of my work.

I thank to Drs. S. K. Rath, B.N. Singh, Kishore Srivastava, Anil Gaekwad, Neelo singh, Uma Roy, J K saxena, KP Madhusudanan, SB Katti, Anuradha Dube, S Sinha, Ali Kausar, AK Srivastava, RK Sharma for their help and support in my research work.

I take the opportunity to thank my colleagues, Jiten, Vishal, Sandeep Shrivastava, Amit, Akshay, Himanshu, Naresh, Neeta, Sushma, Ambarish, Sarvind, Shuja, Tripti, Gauri, Sohail, Sandeep Mishra, Anant, Nidhi, Sarita, Kulwant, Parul,
Priyanka, Divya, Swapnil, Raghu, Shrawan, Sharda, Richa, Aqeel, Ramakrishna, Asutosh (biochem), asutosh (MSB), Siddharth, Amit (biochem), Ravindar, Kishore, Pranav, Saquib, rishi, who made a joyful and excellent working environment and helped me at various time.

I am very much thankful to my friends Rit, Manish, Para Ramesh, Ravi, Pankaj for their continuous encouragement, moral support and for helping me both personally and professionally during my every up and down.

I am also thankful to the associated staff of Director Office, Information, Purchase, Accounts and Library.

Financial support in form of fellowships by CSIR is duly acknowledged.

I thank my childhood friends and friends at college and university; Sisir bhai, Titu, Akshaya, Padmanava, Amulya, Ansuman, Sunil, Manoj, Pandua, Subash, Baby, for their moral support and help at different time.

There is no word to pay gratitude to Pabitra bhai who not only supported me morally and financially, but I also learnt from him how to face and tackle the difficult time in life.

Finally I acknowledge with love my family; my parents, Bhai, Nani, and all other family members, those who have provided me with love and moral support and left no stone unturned to give me a better education.

Ramesh Chandra Nayak
