Acknowledgements

The work of greatmen, any work for that matter, does not take shape merely by sources but by high will power. This saying is undoubtedly true with reference to the guide of these contributions. It has been a rare privilege for the constant-investigator to work under the vigilant guidance of Dr. B. K. Sharma, Professor & Head, School of Studies in Mathematics, Pt. Ravishankar Shukla University, Raipur, whose benevolent and life-giving guidance has been a consistent source of inspiration for me. In no way, I as an ardent investigator would fail to express my personal sense of gratitude to him for this eventual outcome. I extend my heartiest thanks to my worthy guide without whose guidance I could never have had the insight into the seemingly difficult task. I shall always remember the knowledge and the intellectual stimulation provided by him. My special thanks goes to Dr. Mrs. Kalpana Sharma also for her hospitalities and moral support.

At times, when I felt my mind over burdened with darkness of insurmountable difficulties the beacon light come from my respected guru Dr. Pradeep Chaube, whose encouragement and timely help enlightened my path, without which it could not be possible to complete the present study. I humbly pay my respects to him. He not only motivated me to work in an applied field for the research work, but also encouraged me as a guardian.

I tender my most cordial and appreciative thanks to Prof. O. P. Vyas, Head, School of Studies in Computer Science, Pt. Ravishankar Shukla University, Raipur for providing the net facility. I am also thankful to all the faculty members from this department for their help during my research work.

I am thankful to Shri Imtiyaz Khan, Asst. Librarian, Pt. Sunderlal Sharma Library and the others library staff for their sincere help and their personal kindness in providing required books on short notice.
I am also thankful to all my friends and fellow researchers in cryptography, for garnishing reprints and preprints during my research work.

I owe my sincere thanks to Prof R. N. Tiwari (Retired Prof.), Dr. B. P. Tripathi & Dr. G. S. Saluja Department of Mathematics & IT, Govt. College of Science, Raipur and Prof. Sameer Thakar, Dept. of Physics, Govt. College of Science, Raipur for their constant encouragement, blessings, inspirations and timely consultation and counselling.

I am grateful to Dr. B. S. Thakur, School of Studies in Mathematics, Pt. Ravishankar Shukla University, Raipur, for his painstaking efforts during typing of the thesis and to provide such a good frame. I have no words to pay thanks to him.

I am also grateful to Prof. C. M. Mukherji and Prof. Harsh Sharma for spending their valuable time for the proof reading of this thesis.

I also express my sincere thanks to my colleagues Mr. Krishna Kumar Sahu and Mr. Sunil Kumar Kashyap for their kind help and well wishes.

In fine, I would like to extend my best regards and hearty love to my home-people who have always given a warm pat on my back to go ahead in the troubled waters and steer clear through the rocks and shoals, and more often than not, extended a hand to share at intricate points. I am deeply indebted to my father Shri Prahlad Padhye and to my brothers for their tremendous love, sacrifice, patronage and blessings, which enabled me to complete the work.

I am very much grateful to God, who kept on blessing me with tranquility of mind and calm courage of soul to go in my pursuit.

Financial assistance rendered by Council of Scientific & Industrial Research, New Delhi (CSIR Sanction No-9/266(64)/2003-EMR-I) as JRF & SRF is also profoundly acknowledged.
Last but not the least, I humbly offer my most sincere thanks to all of those who are directly or indirectly attached to me, whose sincere compliments have been in consonance wish looking forward for my success.

Sahadeo Padhye
