ACKNOWLEDGEMENT

I would like to express my sincere indebtedness and gratitude to my esteemed teacher and supervisor, Dr. D. M. Vasudevan, Principal, Amrita Institute of Medical Sciences and Research Centre, Cochin, for his continuous and untiring guidance, excellent ideas, valuable suggestions and critical appraisal throughout the research period and the preparation of the thesis.

I extend my sincere gratitude to Dr. T. Vijayakumar, Director, School of Health Sciences, Calicut University, who was always keen on the pragmatic guidance and encouragement throughout the course of work and for the help in preparing this manuscript. I am grateful to Late Dr. V. K. Sasidharan, Department of Life Sciences, Calicut University for initial help by the way of introducing me to my guide and encouragement till the completion of this work.

I extend my sincere gratitude to Dr. C. D Joseph and Dr. Mary Anne Godley, Amala Cancer Hospital and Research Centre, Thrissur, Dr. V. Mani, Medical college, Thrissur and Dr. Ramesh Kumar of Endocrinology and Immunology Laboratory, Ernakulam for providing me samples and infrastructure required for this study.

With great pleasure, I express my heartfelt gratitude to the Principal, Medical College and Head of the Department of Biochemistry, Medical
College, Thrissur for the blessing and the golden opportunity provided to me to carry out this research work.

I express my sincere gratitude to Dr. K. R. Shanavas, Research Associate, Department of Biochemistry, Medical College, Thrissur for his great help and co-operation throughout this work.

I record my deep sense of gratitude to Dr. M. Chandrasekaran, Professor & Former Head, Department of Biotechnology, Dr. C. S. Paulose, Head, Department of Biotechnology & Dr. Sarita G. Bhat, Lecturer, Department of Biotechnology, Cochin University of Science and Technology, Cochin, for their valuable support and encouragement in all my efforts.

I am grateful to Dr. Shankar Shashidhar, Director, School of Biosciences, and Dr. K Jayachandran, Lecturer, School of Biosciences, M G University, Kottayam for their inspiring advices, extensive co-operation and spontaneous help in different ways.

I also thank all the staff and members of the Department of Biochemistry, Medical College, Thrissur for their help and co-operation.

I am thankful to all the Research Scholars of Microbial Technology Laboratory and Neuroscience Laboratory and the administrative staff of the Department of Biotechnology, Cochin University of Science and Technology, Cochin, for their help and co-operation.
The financial assistance from CSIR in the form of research fellowship is greatly acknowledged.

I have no words to extend my deep sense of gratitude to my family members who are instrumental for taking this study and their patience, moral support, encouragement, co-operation and blessings throughout this thesis work.

Innumerable friends, colleagues and well wishers were involved in this work directly or indirectly. I thank one and all for their generous help that has made this research work a reality.

Elyas K K
