ACKNOWLEDGEMENTS.

The pages bound in this volume have emerged out of my four and half years' labour under the blissful patronage of many worthy benefactors.

The grant of Junior fellowship and Subsequent Senior fellowship by U.G.C. to enable me to undertake the project has put me under heavy obligation of ex-Vice-Chancellor of Ravishankar University, respected Shri K.P. Chaube who found me worthy of the award.

The facilities provided by respected Dr. P.R. Khandekar, Principal, Government College of Science, Raipur at the research centre of the department are gratefully acknowledged.

I have drawn heavily upon the literature evolved and developed by a galaxy of mathematicians. I am indebted to all the devotees of the subject and the obligation is acknowledged in the form of reference to their names and works at relevant places.

Dr. L.A. Dixit and Dr. M.P. Pateriya offered all the resources at their command for the purpose of my project. Dr. G.N. Chandwani came forward with many suggestions for improvement in my work. My sincere thanks are due to these gentlemen.

During my stay at the research centre I have availed of the wholesome atmosphere engendered by the companionship of the members in the departments of Mathematics, Hindi and English. I entertain sweet memories of moments spent in the warm company of Head of the Department of Hindi, Dr. Smt. Kailash Jain, who
has been a source of inspiration to me. I am grateful to all the members whose affection I have enjoyed as the youngest child of a family.

The members of staff in the libraries at the Ravishankar University, Government College of Science, Government College of Engineering and Technology, Raipur have earned my gratitude by the tireless labour undertaken by them in procuring the literature for my use. I am obliged to the members of Academic and Account Sections of the University for their timely aid and advice.

Mr. Mathai Philip who has typed these pages is worthy of praise and deserves of my thanks since he has smilingly retyped all the pages discarded by me even on the slightest pretext. The faithfully services rendered by Shri Tulsi Ram, the attendant of the research centre, are also commendable.

The foundation of this project rests on the hard labour valuable guidance, constant encouragement and untiring zeal of my supervisor, DR. RATTAN SINGH MATHARU who showered paternal affection on me. My head bows before him in reverence under the debt of gratitude. I have never felt homesick by virtue of the motherly love I received from Smt. Matharu.

DATED RAIPUR, the 11th August, 1983

BANDANA GUHA.
