ACKNOWLEDGEMENTS

In this research work I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

First of all with the deepest sense of gratitude, I would like to thank my supervisor Prof. R. K Bedi for guiding me with his experience and knowledge and for providing a very informal, and relaxed working environment. The present form of the thesis would not have been possible without his constructive guidance and supervision. I am also deeply indebted to Dr. Aman Mahajan for his scholarly guidance, suggestions, unswerving patience, support and perpetual encouragement. I also need to thank a humble man who guided me in the initial stages of my work, and that was Dr. Amarjit Singh who was my co-supervisor. Sadly he passed on so my thanks go to his family.

I am also highly obliged to Prof. Lakhwant Singh, Professor and Head, Department of Physics, Guru Nanak Dev University, Amritsar for providing the necessary facilities during the entire work.

I would like to acknowledge Inter University Accelerator Centre (IUAC), New Delhi for providing financial assistance in the form of research fellowship and the necessary facilities for carrying out the irradiation experiments. I am thankful to Dr. Ravi Kumar (NIT, Hamirpur) and Dr. K. Asokan (IUAC, New Delhi) for their important suggestions and support for the successful completion of the experiments. The facilities provided by RSIC, Panjab University, Chandigarh and IIC, IIT Roorkee are also gratefully acknowledged.

I have dearth of words to express my thanks to my most co-operative friends Kamalpreet Khun Khun and Iqbal Singh, for their unconditional support and encouragement. I was considerably benefited with the interactions and help extended by them throughout my Ph.D. I am also thankful to my friends and members of Material Science Research Laboratory Dr. Sonic Bhatia, Dr. Dinesh Pathak, Rajan Saini, Ramanpreet Aulakh, Tanvi Mahajan, Gurpreet Singh, Mandeep Singh,
Rajinder Singh Gill, Anshul Sharma and Sukhwinder Singh Brar for their ever willing co-operation and moral support.

An honorable mention goes to my sister Mrs. Irvindeep Kaur, brother S. Gursimrandeep Singh, brother in law S. Harpreet Singh, sister in law Mrs. Amandeep Kaur and my parents in-laws for their kind support, love, patience and constant encouragement which made it possible to reach my goal. The love and support provided by my husband S. Manjinder Singh Kahlon and my daughter Manreet cannot be expressed in words and can only be felt.

And last but certainly not the least; I would like to express my heartfelt thanks to my beloved parents, Mrs. Sarbjit Kaur and Late S. Sarbjit Singh Bal. I’ve no doubt that without the heavenly blessings of my papa; I would not be able to complete my degree. Mummy, you are a wonderful mother and I will forever be grateful for everything you’ve done for me throughout my life. This thesis is for you!

Finally, yet importantly, I am most grateful to the supreme power, The Akal Purkh, who has bestowed upon me the blessings of hard work, dedication and commitment to reach the present position.

(Amandeep Kaur Bal)
