# Table of Contents

1. INTRODUCTION
   1. AIMS AND OBJECTIVES ........................................... 6

2. REVIEW OF LITERATURE ............................................ 7-40
   2.1 EPIDEMIOLOGY OF DEPRESSION .................................. 7
   2.2 SUB-THRESHOLD AND SUB-CLINICAL FORMS OF DEPRESSION ......... 7
   2.3 NEUROBIOLOGICAL BASIS OF DEPRESSION ....................... 11
   2.4 NEUROTRANSMITTERS ............................................. 13
   2.5 NEURO-ENDOCRINE FUNCTION .................................... 16
   2.6 NEUROTROPHIC FACTORS ......................................... 17
   2.7 DEPRESSION AS A HEALTH PROBLEM ............................... 18
   2.8 RELATIONSHIP BETWEEN DEPRESSION AND OBESITY .............. 18
   2.9 GENETIC BACKGROUND OF DEPRESSION ............................ 23
   2.10 COMMON GENES IN ETIOLOGY OF DEPRESSION AND OBESITY ..... 29
   2.11 SOCIOECONOMIC STATUS, DEPRESSION AND OBESITY .......... 37
   2.11 GAPS IN EXISTING RESEARCH .................................. 39

3. MATERIALS AND METHODS .......................................... 41-57
   3.1 RECRUITMENT OF SUBJECTS ...................................... 41
   3.2 GENOMIC DNA EXTRACTION ...................................... 44
   3.3 MOLECULAR GENETIC ANALYSIS .................................. 49
   3.4 GEL ELECTROPHORESIS ........................................... 53
   3.5 CLINICAL INVESTIGATIONS ...................................... 54
   3.6 STATISTICAL ANALYSIS .......................................... 56
Table of contents contd…..

4. RESULTS  

4.1 DEMOGRAPHIC, ANTHROPOMETRIC, PHYSIOLOGICAL AND CLINICAL VARIABLES AMONG CASES AND CONTROLS  

4.2 CORRELATION BETWEEN OBESITY AND DEPRESSION  

4.3 GENETIC VARIABLES AND THEIR COORELATION WITH DEPRESSION AND RELATED SYMPTOMATOLOGY  

4.4 RELATIONSHIP BETWEEN SOCIOECONOMIC STATUS AND WEIGHT LOSS AMONG DEPRESSED INDIVIDUALS  

5. DISCUSSION  

SUMMARY
