Acknowledgements

With profound veneration, first of all I recline myself before the ‘Waheguru’ with whose grace and blessings I have been able to complete another chapter of my life.

A formal statement of acknowledgement will hardly meet the end of justice in the matter of expression of my deep, unsound sense of gratitude and obligation to my esteemed guide Dr. (Mrs.) Damanjit Kaur, Reader, Department of Chemistry, Guru Nanak Dev University, Amritsar for her sincere efforts, keen interest, lively and caring nature, encouraging attitude and dexterous guidance throughout this course of investigation and preparation of thesis that has enabled me to reach this level of academic attainment.

Words in my command are insufficient to show my respect to former heads Dr. Rakesh Mahajan and Dr. Ishtiaque Ahmad and Dr. Subodh Kumar, present head, Department of Chemistry, G. N. D. U. for providing me necessary help to accomplish this task.

I take this opportunity to thank all the faculty members who helped me during my research work.

I wish to express my sincere thanks to all my fellow colleagues and friends especially Punita, Ruchi and Shweta for their inspiration, valuable guidance, lively sentiments, fullest cooperation and unforgettable company.

Words would never match the warmth emotions to my husband Harpreet Singh, who stood firmly by my side and has been with me during all ups and downs, celebrations and confusions. His unending love and trust keeps me energized in all my endeavors.

I bow my head to my beloved parents for their generous support, positive attitude, the interest and self-felt but untold sacrifices for my better and bright future. I shall never be able to express to any degree of satisfaction, my deepest feelings of gratefulness to all my family members especially my younger sister Harminder, brother Harkanwal and brother in law Bikram for their affection, moral support, unreserved blessings and motivation in even as well as in odd times.

Date: Rupinder Preet Kaur
