1. Introduction and Objectives

1.1 Introduction

1.2 Aims and objectives

1.3 Plan of work

1.4 Methodology

1.4.1 Purification and analysis of inclusion bodies

1.4.2 Solubilization and purification of inclusion body proteins

1.4.3 Solubilization and refolding of inclusion body proteins by organic solvents

1.4.4 High throughput recovery of human growth hormone from inclusion bodies

1.5 References
