ACKNOWLEDGEMENT

It is with deep sense of gratitude that I record my sincere thanks to:

Dr. N.K. Yadav, for having allowed me to pursue research work on this subject and for keen interest and constant encouragement shown during the course of this work.

Dr. S.G. Desai, Head, Microbiology Dept., Gujarat University, for providing requisite facilities.

Dr. V.R. Sista, Head, Biotechnology Division, Indian Institute of Petroleum, Dehradun, for use of fermentation facilities at IIP Project, Gujarat Refinery, Baroda, which allowed me to complete my work in prescribed time limit, is greatfully acknowledged.

Dr. T.S.R. Prasad Rao, Director, IIP, Dehradun, for his encouragement during the course of this work.

Mr. V.S. Saini, Scientist, IIP, Dehradun, for his valuable help in experimental work and correction of the Thesis as well as constant encouragement and support.
Dr. D.K. Adhikari, Shri P.S. Patel, Shri G.M. Thakkar (IIT, Dehradun) and Dr. S.R. Dave and Dr. B.V. Patel (Dept. of Microbiology, Gujarat Univ.) for their support during the course of this work.

Dr. Manjeet Singh, Manager Fermentation, Pfizer Ltd., Chandigarh, for valuable guidance, kind help and constant encouragement.

Dr. K.A. Patel, Sr. Biotechnologist and Dr. M.H. Mehta, GM and Director, Gujarat State Fertilizers Co. Ltd., for their encouragement and permission for the leave of absence during compilation of the Thesis.

Dr. Deepak Shah and colleagues, Biotechnology Div, Gujarat State Fertilizers Co. Ltd., Baroda for constant encouragement during the course of this work.

My friends Dr. Bharat Vyas and Rajesh Patel for their personal encouragement.

Lastly, I would like to express my gratitude towards my family members (parents and sister), without whose understanding, cooperation and patience, I would have never succeeded in achieving my goal.
