VITAE

Mr. V. Ramakrishnan was born on 7th April 1946 at Salem district, Tamilnadu, India. He received Bachelor of Engineering (Electrical Engineering) and Master of Engineering (Power System) in the faculty of Electrical Engineering Department from the University of Madras. He was received Doctor of Philosophy (Power Systems) from International University, Washington DC, U.S.A.

He is currently working as Dean in the Department of Electrical and Electronics Engineering, Aarupadi Vedu Institute of Technology / Vinayaka Mission’s University, Paiyanoor, Chennai, India. His responsibility includes teaching UG and PG of EEE and EIE students. He is an active member in the infrastructure development and has developed various labs in the department of Electrical Engineering. He is a versatile academician and research person. He has gained the technological experience for over 36 years in both teaching and industry in various fields. Also, he has been carried out many HT and LT extension of supply and commissioning works.

He is a life Fellow of the institution of Engineers (India), the Institution of Valuers (India), the Institution of Electronics & Telecommunications Engineers (India) and Indian society for Technology Education (India). He is also a member of the Institution of Electrical and Electronics Engineering (USA) and the Institute of Engineering Technology (UK). He has involved his part of career in development of Wind turbine technologies and visited countries like UK, France, Germany, Netherlands, Belgium and USA for his research. He has participated and conducted many seminars, workshops and symposium. Few numbers of articles on various topics have been published in international journals and he has participated many international and national conferences. His research interests include a Simulation Study of Wind Energy Conversion Systems, by using SIMULINK and verifying the Wind Energy output power through optimization techniques.
