List of Figures

Figure 2.1 Software Development Process ......................................... 13
Figure 2.2 Software Reuse Classification ........................................... 22
Figure 2.3 Software Component Resource ........................................... 29
Figure 2.4 Component Based Software Development Process ................. 32
Figure 4.1 Matrix Representation of Quality Interest ............................ 101
Figure 4.2 Qualities Attributes Matrix .............................................. 102
Figure 4.3 Hexagon Relationship between Quality Attributes ............... 103
Figure 4.4 Waterfall Model by Royce ............................................... 114
Figure 4.5 A Model ........................................................................... 117
Figure 4.6 Umbrella Life Cycle Development Model ............................ 122
Figure 5.1 Component Selection Strategies ......................................... 133
Figure 5.2 Component Selection Process ............................................ 140
Figure 6.1 Security Requirement Complexity ...................................... 163
Figure 6.2 Certification Process ......................................................... 164
Figure 6.3 Security Levels Component Based Software ........................ 167
Figure 6.4 Digital Signature Applications in Security in Banking Sector ... 176
Figure 6.5 Security Goal Templates .................................................... 185
