ACKNOWLEDGEMENTS

The author finds it extremely difficult to completely express deep sense of gratitude to the supervisor Dr. A. Ebenezer Jayakumar Principal (Retired) Govt. College of Engineering, Salem for his guidance and consistent encouragements throughout the course of this research work. The author expresses his profound thanks for the supervisor’s sincere prayers to God to enlighten the author with wisdom for completion of this research work.

The author expresses his heartfelt thanks to Dr. S. Venugopalan Head, Battery Division, ISAC Bangalore, India for his valuable suggestions during the entire period of this research work. The author takes this opportunity to thank all the authorities in ISAC Bangalore, India for providing permission to obtain necessary unclassified information to complete this research work.

The author also is indebted to Mr. K.N. Ramachandran, Chairman, and Dr. K. Vijaya Bhaskar Raju, Principal, of Sakthi Mariamman Engineering College who have allowed the author to carry on with the research offering all the necessary help. The author sincerely thanks the members of staff in the department of IT Sakthi Mariamman Engineering College, who have aided in completing this research work. The author thanks the family members, specifically Mrs. Geetha Ramakrishnan for their encouragement to complete the Thesis.
