Individuals. To be an unfolding of one's inherent capacity by providing appropriate experience which are carefully planned to bring about all round development of the child, the growth instinct must indeed vitalize the educational system, in the manifestation of the perfection already in man, the training by which the child's current and opposing drives are brought under control and become useful in called education. This statement on education is further substantiated by our great leader whose "Gandhiji" that education is an all round driving out of the best in child's mind-body-spirit and spirit.
