ACKNOWLEDGEMENTS

At the very outset, I express my profound sense of gratitude to my research guide Prof. B. Ganga Rao, for suggesting the topic and giving valuable guidance, immense support, useful criticism and constant encouragement throughout the course of this project. My sincere and heartfelt thanks for him. I am very fortunate to be under his guidance, I shall ever remain grateful to him.

I am grateful to Prof. K.S.S. Sambasiva Rao, co-ordinator, centre for Biotechnology, Acharya Nagarjuna University, nagarjuna nagar for the kind co-operation extended to me. I also extend my heartfelt thanks to Dr. P. Sudhakar, HOD, Biotechnology, Acharya Nagarjuna University and to all co-research scholars and supporting staff that have helped directly or indirectly towards the completion of my thesis work.

My sincere thanks to Prof. M. Venkaiah, Department of Botany, Andhra University, for identification and authentication of the plant material.

I acknowledge my gratitude to the authorities of Andhra university in providing the necessary facilities support which enabled me to successfully complete the research program.

I am gratefully beholden and owe a deep sense of honour of my beloved parents Sri. B. Sankara Rao & Smt. B. Satyavathi for their dedicated efforts to educate me to this level and whose unparallel affection and persistent encouragement in shaping my career will go a long way throughout my life.

My heartiest thanks are due to my wife VIJAYA LAKSHMI for her affection and encouragement during my studies.

B. Mahesh Kumar
