ACKNOWLEDGEMENTS

This thesis would not have been possible without the guidance and the help of several individuals who in one way or another contributed and extended their valuable assistance in the preparation and completion of this study. I would like to thank all people who have helped and inspired me during my doctoral study.

First and foremost, my utmost gratitude to Dr. Shailesh Nayak, my guide, whom I idolize, and whose sincerity and encouragement I will never forget. Dr. Nayak has not only guided me throughout this study but has also been my inspiration and enduring support as I hurdle all the obstacles in the completion of this research work. He sets an example of a world-class researcher for his perpetual energy, enthusiasm in research and knowledge is second to none. Despite the distance, his busy schedule and at times unfavorable health conditions, he was always accessible, accommodating to my queries and willing to help me with my thesis. The associated experience with him broadened my perspective on the practical aspects in the industry and as a result, research life became smooth and rewarding for me.

I owe special thanks to Dr. R. D. Shah, Head of the Geology Department, M. G. Science Institute, Gujarat University, who has educated me and had kind concern and consideration regarding my academic requirements. Here I would like to specially acknowledge and extend my heartiest gratitude for unselfish and unfailing guidance and moral support of Dr. N. Y. Bhatt, professor, M. G. Science Institute, Gujarat University, throughout my educational as well as professional life. He has always been there to help, whenever I required guidance. Thank you sir! I am lucky to have a teacher like you. My gratitude is also due to Professor P. M. Solanki, as he has been a good teacher. I thank Dr. Jain, the Principal, M. G. Science Institute, Gujarat University, technical and non-technical staff of the M. G. Science Institute, Gujarat University, for their encouragement and support all the way. My professors has not only poured in me the basic knowledge of the subject, but also provided me with the platform to initiate and make a career in research field. I got an opportunity to start my career as research fellow for the same department, where I had been a student during my Graduation and Post-Graduation. I
thank all the students, including all my seniors, classmates and juniors from M. G.
Science Institute, especially Namrata, Bhargavi, Hardik, Mahendra, Dhaval, Dhara,
Dipal, Rupal, Abhijit, Anurag, Vasu, Niral, Tanveer, Nimit, Praneta, Harshal, Gayatri,
Bansari, Bhumi, Upassana, Ruby, Darshana, Hiral, Riddhi, Nirupama, Mausom, Shikha,
Khushbu, Parnavi and many more adorable friends, for their untiring effort in
encouraging me to complete my thesis. I always say “My department is my second
home” and will always remain the same.

I am grateful to Dr. Navalgund, Director, Space Applications Centre, ISRO,
Ahmedabad, Dr. Shailesh Nayak, the then Group Director and my guide, MWRG, Dr.
Ajai, Group Director MESG, Dr. T.J. Majumdar, Division Head, ESHD, Dr. R. M.
Dwivedi, Division Head, Dr. M. V. Muley, Dr. Arya, and all the other scientist, research
scholars, librarian, computer engineers and complete other staff of Space Applications
Centre, ISRO, Ahmedabad, for providing the facilities, encouragement and guidance to
carry out my doctoral work, exposure to latest research in the subject and for sharing their
knowledge and insights which will help me in my future endeavors as well. Furthermore,
I am grateful to come across several life-long friends at work and would take this
opportunity to express deep gratitude towards Indranidi and Sushilbhaiya, for being my
friend, philosopher and guide, as I have looked upon them and learned a lot. Devendra,
Kanishk, Chaitali, Gargi, Rajeshree, Arvind, Nagamani, kosh, Suchita, Prince, Sahedev,
Ami, Kajal, Jitu, Muhendro and Malti have been lovable friends and wonderful
colleagues who made SAC a convivial place to work. It has been for Rajnikantbhai that
work never stopped, as he has been help in one way or another, especially when the
system broke down during the course of usage. Thank you Rajnikantbhai!

Sincere thanks also goes to Dr. Rastogi, Director General, all the scientist,
research fellows, technical officers and technical assistants, librarian, administration and
accounts staff, drivers and entire staff of Institute of Seismological Research,
Gandhinagar, for guiding and backing me up during the finalization and submission of
my thesis. I owe a special thanks to my friends and colleagues from ISR, including
Hardik, Mahendra, Vasu, Pooja, Sarda, Ranjana, Jaina, Girish, Gagan, Suresh, Ashish,
ACKNOWLEDGEMENTS

Suryaprakash, Limpou, Darshit, Gaurang, Jayesh, Mohar, Vandana, Sandeep, Bharat and Paresh, who have always been there to lend me a helping hand gladly.

My dearest friends Montu, Darshu, Monu and Uttara have steadfastly bestowed the strength to me, to withstand against all the odd throughout my life. My lovely little sister Pooja has always been one of my best friend and counselor. Thank you karan! my little brother, for being such a sweet heart. I cherished the prayers and support between me and all of them, and treasured all precious moments we shared and would really like to thank them. I thank my Grandparents, Uncles and Aunts, cousins and extended family for their blessings.

Last but not the least, my deepest gratitude goes to my family for their unflagging love and support throughout my life; this thesis would have been simply impossible without them. I am indebted to my father for his care and love. I cannot ask for more from my mother as she is simply perfect. I feel proud of my little brother for his talents and intelligence. I have no suitable word that can fully describe my family’s everlasting love and support to me. I love you all!

Thanks be to God, the one above all of us, the omnipresent divine power, for answering my prayers for giving me the strength to plod on despite my constitution wanting to give up, thank you so much Dear Lord for putting my life through all tests in the past five years because of which I have evolved as a better human being.
