Acknowledgements

I first recollect the Almighty for His continuous blessings in all my endeavors. I would like to express my deep sense of gratitude to my research supervisor, a wonderful humane and great scholar, Prof. C. Rambabu, Department of Chemistry, Acharya Nagarjuna University, for his valuable guidance and support throughout the programme. I would like to thank my thesis co-supervisor Dr. G. Srinivasa Rao, Reader in Physics, Andhra Loyola College, for his constant support without whom this journey is not fruitful; his lofty standards always remain a benchmark for me. I would like to thank all my co-scholars, and the members of the faculty for their continuous help. I wish to thank Dr. Ramachandran, Department of Chemistry, ANU and Dr. G.V. Rama Rao, Principal, DAR College, Nuzvid for their support.

A special mention of the Jesuit fathers at Andhra Loyola College (my place of work) is note worthy as their advice and encouragement are with me in all my walks of life. I offer my thanks to all the people who enriched my life at Hyderabad Central University (HCU). I specially thank Prof. T.P. Radha Krishnan, Prof. S. Pal and Prof. M. Durga Prasad for their valuable suggestions in improving the work. I also recall all my Gurus who taught me right from my childhood onwards. I recollect and cherish the company of all my students in fact my treasure. A special note of appreciation to my students, Hari, Pramod, Baswanth, Gurubrahmam, Pavan, Subba Reddy, Ravi, Ankamma Rao; it is difficult, almost impossible for my not-so-good memory, to enlist all my loving students here.

The real strength behind me is my family. No amount of words can describe my gratitude towards my family. I dedicate this thesis and all my efforts to my loving family; to my parents D.M. Choudary and D.M. Rani; to my wife D.M.S. Sujatha and children D.B. Vardhan Kumar and D. Lokesh Teja.

I would like to thank the UGC, New Delhi for giving me the teacher fellowship under the scheme FDP, to carryout this research programme. My special thanks are to the departments of Chemistry and Physics, Andhra Loyola College and ANU PG Centre (Nuzvid) for providing me the lab facility.

D.B. Karuna Kumar
