

ACKNOWLEDGEMENTS

I take this opportunity to express my sincere thanks to Prof. R.K. Saxena for his exemplary guidance and constant encouragement, without which this would not have been possible. He shall always remain a source of inspiration for me throughout my career.

I am grateful to the Dean, Prof. Sipra Guha-Mukherjee and the former Deans Prof. P.C. Kesavan and Prof. M. Habibulla for the research facilities provided at the School of Life Sciences.

My thanks are due to:

- *Dr. M.L Gupta, Director, Red Cross Society of India, New Delhi, for providing normal human blood samples.*
- *All the students of School of Life Sciences who donated blood for this work.*
- *Drs. V. Kochupillai and R. Anandhi of Institute Rotary Cancer Hospital, All India Institute of Medical Sciences, New Delhi for providing blood samples from leukemia patients.*
- *Dr. Raj Raghupathy, N.I.I for allowing the use of their flowcytometer and Mr. Anil Pahuja for running the samples.*
- *Dr. I.S. Lamba, Institute of Biomedical Statistics, I.C.M.R. for his help in statistical analysis of data.*

I would like to thank the staff of the Central Instruments facility and Animal House for all their help during the course of this work.

I am grateful to my senior colleagues, Apurva, Uday and Anila for introducing me to various immunological techniques.

I shall always cherish the help and co-operation from my labmates Niti, Beena, Sohita and Aparna.

I would like to thank Matthew, Yashpal and Kuldeep for their laboratory assistance.

Financial support from C.S.I.R for this study in the form of junior and senior research fellowships is duly acknowledged.

It is almost impossible to acknowledge all my friends who have been a great help in one way or the other.

VALSALA HARIDAS
