ACKNOWLEDGEMENT

In presenting my thesis in the foregoing pages, I feel it my bounden duty to express my heartfelt gratitude and regards to my guide Dr. G.S. Pandey whose scholarship associated with his kind and elderly guidance helped me, and thereby made it possible for me to complete the research studies.

I express my sincere gratefulness to Professor S.G. Tanon, Head of the Department of Chemistry, Ravishankar University, Raipur for providing necessary laboratory facilities, and his encouragement during the research work.

I feel more overwhelmed with gratitude while thanking Professor G.D. Agarwal, Ex-Member Secretary, Central Pollution control Board and Director, Envirotech, New Delhi for his valuable suggestions and keen interest during the progress of research work. The facilities he provided to me during the research studies are most gratefully acknowledged.

I also express my gratefulness to the Member Secretary, Dr. K.R. Ranganathan, Central Pollution Control Board, New Delhi, who after my joining as Senior Scientific Assistant under his kind control, provided facilities for compilation of my experimental data. I am also thankful to my colleagues Mr. M.K. Choudhury, and P. Chakma for their co-operation during the preparation stage of my thesis.

I am thankful to the authorities of Indian Institute of Technology, New Delhi, and North Eastern Hill University, Shillong for providing library facilities. I also express my sincere thanks to the authorities of Geological Survey of India, Shillong and Directorate of Geology and mining, Raipur, for providing facilities for spectroscopic and AAS measurements.

I extend my sincere thanks to Miss Nandita Shukla, Senior Research Fellow, for the help she has provided me during the research work. Cordial thanks are due to my research-mates Geeta Jallan, Komal Loomba, Anita Savant, Namrata Shukla, Shamsh Pervez Chandrasagar Agrawal, for their co-operation during the course of research work.

The present study would not have been possible without the blessings of my parents, Shri S.N. Moitra and Smt. Anjana Moitra, and their constant encouragements. I take this opportunity to thank my uncle Shri Amalesh Lahiri for his constant encouragement and inspiration. I am thankful to my brother Susanta, who helped me during the field work and sample collection and my sister Sujata for her help and co-operation.

JAYANTA MOITRA
