"Commit to the Lord whatever you do, and your plans will succeed". I start with the name of Almighty, who is most benign and merciful. I am greatly thankful to the God for giving me blessings and always illuminating me with the light of success.

A Thesis is the culmination of any course of study for Doctorate degree, as such it forms the master piece. This crown piece of my Doctorate degree has taken it shape due to the assiduous efforts of my guide Dr. G. L. Mundhara, Head SOS in Chemistry, Pt. Ravishankar University, Raipur, (C. G.). I convey my thankfulness to him for his fervency and inspiration, which imbued me with the unparalleled zeal throughout the whole investigation and for sharing the richness of his knowledge. It is indeed, my fortune to avail the opportunity of working under his guidance.

It gives me an immense pleasure, and I feel privileged, of having an opportunity to express my gratitude and respect for my co-guide Dr. S. K. Katiyar, Head, Department of Biotechnology, Indira Gandhi Agricultural University, Raipur, (C. G.). I am profoundly grateful to him for his valuable guidance and handling of the reins of my work so efficiently. I owe him my heartfelt and sincere thanks for introducing me through the world of plants and their systems. His patient guidance, fruitful criticism, scholarly and up to the mark recommendations proved to be a torch showing me the right path towards my destination. It was really generous of him to spare time from his task in the midst of his busy schedule.

Submission of thesis is supposed to be an individual task, but it is a collective effort of many hands and many minds. It would be worth attributing their names in this thesis at this juncture. I am indebted to Dr. K. L. Tiwari, Reader, SOS Biotechnology, Pt. R. S. University, Raipur, Dr. Anil Kotasthane, Dr. Girish Chandel, Dr. Manorama, Dr. Zenu Jha and Mr. C. M. Sharma for their valuable counseling, critical comments, everlasting support and kind help rendered as and when needed. I feel highly obliged to Dr. A. K. Geda, Dr. P. L. Choudhary, College of Dairy Technology, IGAU, Dr. Tomar, Shri Narayan Bhai Chawala and Dr. R. K. S. Tiwari for helping me throughout my research work by providing me research material and lab facilities. I feel highly obliged to Dr. Ritu Saxena and Dr. R. R. Saxena for helping me in statistical analysis.
I would like to recognize the unrelenting help of the supporting staff of the Chemistry department, Pt. RSU, Raipur and Department of Biotechnology, IGAU, Raipur, Mr. Pathak, Mr. Pandey, Mr. Sharma, Mr. Rajesh, Mr. Vinod, Mr. Pusao, Mr. Dilip, Mrs. Urmila. There are many friends and well wisher who helped me in various ways towards the present study and they are my invaluable assets. I am highly thankful to them. Among them my special thanks are due to research colleagues Dr. M. S. Dudhare, Mr. Praveen, Ms. Taranjeet, Ms. Priyanka, Ms. Pallavi, Ms. Rashmi, Ms. Toshi, Mrs. Roohi, Ms. Lekha, Mrs. Pratibha and Mr. Vikas for their help and care. It would be ingenuous if I forget to extend my deepest sense of gratitude towards my friends Ekta, Anjali, Reema, Richa, B. Tripathi for their timely help and encouragement.

The episode of acknowledgement would not be complete without the mention of my parents and grandmother, who taught me the value of hard work by their own example, their unfailing care and blessing in each and every breath, makes my path easier. Their selfless love, constant encouragement, sincere prayers, expectations and blessing have always been the most vital source of inspiration and motivation in my life. The words are unable of expression of the gratitude to my brother-in-law and supporter, Dr. S. K. Bhatt, sister Smt. Jyoti Bhatt, brother Alok Sharma, sister-in-law Smt. Gati Sharma who encouraged me in every moment of my life. I am at loss of words when it comes to express my thanks and gratitude to my nephews and niece, Siddharth, Anshika and Anish which kept me energetic and motivated throughout the work.

The entire presentation of the work has been composed by me using the Computers of the School of Studies in Chemistry, Pt. Ravishankar Shukla University, Raipur by taking the expertise help of Mr. Yogesh Sharma, Computer Assistant. The Printout and Photocopies were provided by the staff of SHREE MAA KARNI ASSOCIATES. Goal Chowk, Rahinipuram, Raipur, I am thankful to them. However, I do not disown myself of any mistake in the text of the Thesis. but I would like to state that “To err is human and to forgive it is humanity”.

Place: Raipur
Date: April 21st 2006
