# TABLE OF CONTENTS

1. **Introduction**  
   1.1 Virus  
   1.2 Herbal Medicine  
      1.2.1 Present Status of Herbal Medicine  
      1.2.2 Status of Herbal Medicine in India  
      1.2.3 Research Approach to Herbal Products  

2. **Role of Plants in Drug Discovery - A Review**  
   2.1 Drug Discovery from Plants  
   2.2 Role of Natural Products as Antiviral Agents  

3. **Scope, Objective and Plan of Work**  

4. **Plant, Cell Culture and Virus Profile**  
   4.1 Plant Profile  
   4.2 Cell Culture Profile  
   4.3 Virus Profile  

5. **Extraction and Phytochemical Studies**  
   5.1 Collection and Authentication  
   5.2 Extraction  
   5.3 Qualitative Phytochemical Studies  

6. **Experimental - Biological Activity**  
   6.1 *In Vitro* Cytotoxicity Studies  
      6.1.1 Materials and methods  
      6.1.2 Determination of Mitochondrial synthesis by MTT assay  
      6.1.3 Determination of Total Protein Content by Sulforhodamine B (SRB) assay  
   6.2 Antiviral Studies  
      6.2.1 Materials and Methods  
         6.2.1.1 Preparation of Virus Pool  
         6.2.1.2 Determination of Virus Titer  
      6.2.2 *In vitro* Antiviral Studies  
         6.2.2.1 Cytopathic Effect Inhibition Assay
6.2.2.2 Virucidal assay
6.2.2.3 MTT antiviral assay
6.2.2.4 Plaque reduction assay
6.2.2.5 Effect of Virus Adsorption/Penetration or Replication-Time of addition/Mode of action of antiviral studies.
6.2.2.6 Immunofluorescence assay

6.2.3 In Vivo Antiviral Activity Against Herpes Simplex Virus type-I
   6.2.3.1 Therapeutic Efficacy in Cutaneous Mouse HSV Infection Model
   6.2.3.2 Determination of Virus Yield in Skin and Brain

6.3 Fractionation of Active Extracts
6.4 Antiviral Studies on Isolated Fractions

7. Results and Discussion

7.1 In Vitro Cytotoxicity Studies

7.2 Antiviral Studies
   7.2.1 In Vitro Antiviral Studies
      7.2.1.1 Herpes Simplex Virus type- I & II, HSV TK-
      7.2.1.2 Adenovirus type- VIII
      7.2.1.3 Poliovirus type- I
      7.2.1.4 Influenza virus type A (H1N1)
   7.2.2 In Vivo Antiviral Activity against Herpes Simplex Virus type- I
      7.2.2.1 Efficacy of Sida cordifolia Extracts on Cutaneous Mouse HSV-1 Infection Model
      7.2.2.2 Effect of Sida cordifolia Extracts on Virus yield in the Skin and Brain of HSV-1 Infected mice

7.3 Fractionation of Active Extracts
7.4 Antiviral Studies on Isolated Fractions

8. Summary and Conclusion

9. References

10. Appendix I: List of Publications and Presentations
11. Appendix II: Awards and Certificates
