ACKNOWLEDGEMENT

The work described in this thesis has been carried out under the kind direction of Dr. I. G. Vashi, M. Sc., Ph. D., F. I. C. C. Chem., F. R. S. C. (London), Reader in Chemistry, University School of Sciences, Gujarat University, Ahmedabad-380 009, India to whom the author wishes to express his deep sense of gratitude for much helpful criticisms and invaluable guidance throughout the course of the present work.

I am thankful to Gujarat State, Gandhinagar and University Grants Commission, New Delhi, for awarding me Junior Research Fellowship throughout the tenure of this work.

I am grateful to Dr. M. N. Desai, Head of the Chemistry Department, Gujarat University, Ahmedabad for granting the laboratory facilities to carry out the experimental work.

May 1986
