ACKNOWLEDGEMENTS

I have immense pleasure in expressing my sincere gratitude to my research supervisor, Dr. BABITHA, B., Assistant Professor, Coordinator, Department of Foods and Nutritional Sciences, Acharya Nagarjuna University, for her detailed and constructive suggestions, and for her important support throughout this work.

My sincere thanks are due to Dr. PADMAVATHI.P., Assistant Professor, Department of Zoology and aquaculture, Acharya Nagarjuna University, stages of my work and encouraged me. I shall always remain deeply indebted to her for her kind help and encouragement.

I would like to express my deep and sincere gratitude to Professor SAMBASIVA RAO, K. R. S., BOS Chairperson, Department of Biotechnology, Acharya Nagarjuna University. His wide knowledge and his logical way of thinking have been of great value for me. His understanding, encouraging and personal guidance have provided a good basis for the present thesis.

I would like to express my warm and sincere thanks to Dr. CH.MANMOHAN., Diabetologist, Government General Hospital, Guntur for his constant encouragement to pursue my research work and his help at various stages of research.

I express my sincere thanks to Dr. SUDHAKAR., Assistant Professor, coordinator, Department of Biotechnology, Acharya Nagarjuna University. His kind help and encouragement.
I sincerely thank to N. SHARMA., professor, Department of Zoology and aquaculture, Acharya Nagarjuna University., stages of my work and encouraged me to complete my thesis. I shall always remain deeply indebted to him for his kind help and encouragement.

I owe my most sincere gratitude to Retired Professor PERAMMA, D., Former Head, Department of Foods and Nutritional Sciences, Acharya Nagarjuna University., local chapter (Tirupati) Convener of Nutrition Society of India, who introduced me to the field of Foods and Nutritional Sciences and important guidance during my first steps into Nutrition studies. Her Ideas and concepts have made a remarkable influence on my entire career in the field of research.

I warmly thank to K.JAYANTHA RAO., Department of Zoology, Sri Venkateswara University, Tirupati, for providing Harpenden skinfold calipers and his valuable advice and friendly help. His extensive discussions around my work and interesting explorations in operations have been very helpful for this study.

My special thanks to Professor ANJANEYULU, G. V. S. R., Ph.D., Department of Statistics for his help in statistical analysis of research work.

During this work I have collaborated with many colleagues for whom I have great regard, and I wish to extend my warmest thanks to all those who have helped me with my work, specially I thank to librarian, Sri Venkateswara University, Tirupati.

I also wish to thank my colleagues Mrs.CH.MANJULA and Mrs. D.JALAJA KUMARI, for their constant support during the course of my work.

My sincere thanks are to the subjects of my study. Their participation, eagerness, enthusiasm and co-operation are immemorable.
I am grateful to all the staff and research scholars of Department of Biotechnology for the co-operation they extended throughout the period of my research work.
