LIST OF TABLES

Table 2.1 Mapping of Information literacy Instruction Module with Kuhlthau’s Information Search Process (ISP) stages ................................................................. 44
Table 4.1 Number of Colleges by location ..................................................................... 93
Table 4.2 Sample Size by Gender for Phase 1 ................................................................. 94
Table 4.3 Components of the Questionnaire along with Sub variables ....................... 97
Table 4.4 Mapping of Questions according to ACRL Standards .................................... 98
Table 4.5 Reliability of the Information literacy skills Questionnaire ......................... 103
Table 4.6 Nature and Size of the Sample for Phase 2 ...................................................... 105
Table 6.1 Faculty of Study ............................................................................................... 135
Table 6.2 Degree of Study ............................................................................................... 135
Table 6.3 Gender of Students ......................................................................................... 135
Table 6.4 Age Group of Students ................................................................................... 136
Table 6.5 Library Orientation ......................................................................................... 136
Table 6.6 Library Usage ................................................................................................. 137
Table 6.7 Library Skills ................................................................................................. 137
Table 6.8 Internet Usage for project .............................................................................. 138
Table 6.9 Frequency of responses for Variable Catalogue .............................................. 139
Table 6.10 Frequency of responses for Variable Call number ....................................... 140
Table 6.11 Frequency of responses for Variable Project Detail ..................................... 141
Table 6.12 Frequency of responses for Variable Information Source ............................. 142
Table 6.13 Frequency of responses for Variable on Research Experience ..................... 144
Table 6.14 Frequency of responses for Variable on research question ........................... 144
Table 6.15 Frequency of responses for Variable on Library use .................................... 145
Table 6.16 Frequency of responses for Variable on Library use- Searching ................. 146
Table 6.17: Frequency of responses for Variable on Library use-Recording Citation .......... 147
Table 6.18 Frequency of responses for Variable on Library use- Search terms ............... 148
Table 6.19 Frequency of responses for Variable on Referencing ................................... 149
Table 6.20 Frequency of responses for Variable on Citation Style ............................... 151
Table 6.21 Frequency of responses for Variable on Citation ........................................ 151
Table 6.22 Frequency of responses for Variable on Citation Style ............................... 151
Table 6.23 Frequency of responses for Variable on Information need ........................... 154
Table 6.24: Frequency of responses for Variable on Research Question-Framing ... 155
Table 6.25 Frequency of responses for Variable on Research Question .............. 156
Table 6.26 Frequency of responses for Variable on Encyclopaedia .................... 157
Table 6.27 Frequency of responses for Variable on Information Source – Popular Magazine .......................................................... 158
Table 6.28 Frequency of responses for Variable on Interlibrary loan ................ 159
Table 6.29 Frequency of responses for Variable on Significant Word ............... 160
Table 6.30 Frequency of responses for Variable Catalogue – Search Option ........ 161
Table 6.31 Frequency of responses for Variable on synonyms ......................... 162
Table 6.32 Frequency of responses for Variable on Boolean Operator ............... 163
Table 6.33 Frequency of responses for Variable on Boolean operator - or .......... 164
Table 6.34 Frequency of responses on Variable Truncation Symbol .................. 165
Table 6.35 Frequency of responses for Variable on Controlled Vocabulary ........ 166
Table 6.36 Frequency of responses for Variable on Citation Elements ............... 167
Table 6.37 Frequency of responses for Variable on Help Devices .................... 169
Table 6.38: Frequency of responses for Variable on Reading Citation ............... 171
Table 6.39: Frequency of responses for Variable on Selecting Relevant Information .................................................................................................................. 172
Table 6.40 Frequency of responses for Variable on Verbatim Information ........ 173
Table 6.41 Frequency of responses for Variable on Evaluating Contradictory Information .............................................................................................................. 175
Table 6.42 Frequency of responses for Variable on Date of Source ................. 176
Table 6.43 Frequency of responses for Variable on Evaluating Web page .......... 177
Table 6.44 Frequency of responses for Variable on Evaluating Book ............... 178
Table 6.45 Frequency of responses for Variable on Password ....................... 179
Table 6.46 Frequency of responses for Variable on Citing References .............. 180
Table 6.47 Frequency of responses for Variable on Citation Style .................... 181
Table 6.48 Frequency of responses for Variable on Plagiarism ....................... 182
Table 6.49 Frequency of responses for Variable on Copyright ....................... 183
Table 6.50 Frequency of responses for Variable on Intellectual Property Rights .... 184
Table 6.51 Results by theme- Research Process ............................................. 185
Table 6.52 Results by Percentage of Correct Answer for Research Process ....... 186
Table 6.53 Results by Theme – Research Skills .............................................. 187
Table 6.54: Results by Percentage of Correct Answer for Research Skills ......... 188
Table 6.55 Results by percentage of Correct Answer for Overall Information Literacy Skills .......................................................................................................................................................... 189
Table 7.1 Descriptive Statistics of Information Literacy Skills among Student Teachers from Arts Faculty ......................................................................................................................................................... 201
Table 7.2 SE and FL of Mean and Standard Deviation of the distribution of information literacy skills among the students of arts faculty ........................................201
Table 7.3 Distribution of Original and Smoothened Frequencies of Information Literacy skills of students from Arts faculty is presented graphically in figure 7.1 .............202
Table 7.4 Descriptive Statistics of Information literacy skills among student teachers from Commerce Faculty ......................................................................................................................................................... 204
TABLE 7.5 SE and FL of mean and Standard Deviation of the distribution of information literacy skills among the students of Commerce Faculty.............................204
Table 7.6 Distribution of Original and Smoothened frequencies of Information literacy skills of students from Commerce Faculty is presented graphically in .................205
Table 7.7 Descriptive statistics of Information literacy skills among Student teachers from Science Faculty ........................................................................................................................................................................ 207
Table 7.8 SE and FL limit of mean and Standard Deviation of the distribution of Information literacy skills among the students of Science Faculty .........................207
Table 7.9 Distribution of Original and Smoothened Frequencies of Information literacy skills of students from Science Faculty is presented graphically in ..............208
Table 7.10 SE and FL of Mean and Standard Deviation of the distribution of Information literacy skills among the Students of Different Faculty..........................210
Table 7.11 Descriptive statistics of Information literacy skills among Student teachers with Graduate Degree .......................................................................................................................... 211
Table 7.12 SE and FL of Mean and Standard Deviation of the distribution of Information literacy skills among the students teachers with Graduate Degree..............211
Table 7.13 Distribution of Original and Smoothened Frequencies of Information literacy skills of student teachers with Graduate degree is presented graphically in figure 7.4 ........................................................................................................................................................................ 212
Table 7.14 Descriptive statistics of Information literacy skills among student teachers with Post Graduate degree .................................................................................................................. 214
Table 7.15 SE and FL Mean and Standard Deviation of the distribution of Information literacy skills among the students’ teachers with Post Graduate Degree .......................................................................................................................................................... 214
Table 7.16 Distribution of Original and Smoothened Frequencies of Information literacy skills of students with Post Graduate Degree is presented graphically in Figure 7.4

Table 7.17 SE and FL of Mean and Standard Deviation of the distribution of Information literacy skills among the Students of different Faculty

Table 7.18 Descriptive statistics of Information literacy skills Pre-test scores of Control Group

Table 7.19 SE and FL of Mean and Standard Deviation of the distribution of Information literacy skills Pre-test scores among the students teachers in Control Group

Table 7.20 Distribution of Original and Smoothened Frequencies of Information literacy skills among the Student Teachers in Control Group is presented graphically in Figure 7.6

Table 7.21 Descriptive statistics of Information literacy skills Post-test scores of Control Group

Table 7.22 SE and FL Mean and Standard Deviation of the distribution of Information literacy skills Post-test scores among the student teachers in Control Group

Table 7.23 Distribution of Original and Smoothened Frequencies of Information Literacy skills among the student teachers in Control Group is presented graphically in Figure 7.7

Table 7.24 Descriptive statistics of Information literacy skills Pre-test scores of Experimental Group

Table 7.25 SE and FL Mean and Standard Deviation of the distribution of Information literacy skills Pre-test scores among the students teachers in Experimental Group

Table 7.26 Distribution of Original and Smoothened Frequencies of Information literacy skills among the student teachers in Experimental group is presented graphically in Figure 7.8

Table 7.27 Descriptive Statistics of Information literacy skills Post-test scores of Experimental Group

Table 7.28 SE and FL of Mean and Standard Deviation of the distribution of Information literacy skills Post-test scores among the student teachers in Experimental Group
Table 7.29 Distribution of Original and Smoothened Frequencies of Information literacy skills among the student teachers in Experimental Group is presented graphically in figure 7.9 ................................................................. 230
Table 8.1 ANOVA for Information literacy scores of student teachers on the basis of their Faculty at Graduation ................................................................. 239
Table 8.2 Mean Differences in the Information literacy skills of student teachers by Faculty ........................................................................................................ 240
Table 8.3 ANOVA for Information literacy scores of student teachers on the basis of their Degree .......................................................................................... 242
Table 8.4 Relevant Statistics of Pre-test Information literacy skill scores of Experimental and Control Group ........................................................................ 243
Table 8.5 Relevant statistics of Post-test Information literacy skills scores of Experimental and Control group ........................................................................ 244
Table 8.6 Effect of Information literacy skills Instruction Module (Independent Variable) on Information literacy skills (Dependent Variable) ..................... 247
Table 9.1: Pre-test and Post-test score comparison on Variable Catalogue ....... 252
Table 9.2 Pre-test and Post-test comparison on Variable Call number ............ 252
Table 9.3 Pre-test and Post-test comparison on Variable Project detail .......... 253
Table 9.4 Pre-test and Post-test comparison on Variable Information Source ...... 254
Table 9.5 Pre-test and Post-test comparison on Variable Research Question ...... 254
Table 9.6 Pre-test and Post-test comparison on Variable Library Use ............. 255
Table 9.7 Pre-test and Post-test comparison on Variable Library Use- Searching .... 255
Table 9.8 Pre-test and Post-test comparison on Variable Library use- Recording Citation .................................................................................................................. 256
Table 9.9 Pre-test and Post-test comparison on variable Library Use – Search Terms ........................................................................................................ 256
Table 9.10 Pre-test and Post-test comparison on Variable Referencing .......... 257
Table 9.11 Pre-test and Post-test comparison on Variable Citation Style ......... 257
Table 9.12 Pre-test and Post-test comparison on Variable Citation ................ 258
Table 9.13 Pre-test and Post-test comparison on Variable Citation Style ......... 258
Table 9.14 Pre-test and Post-test comparison on Variable Citation Style .......... 258
Table 9.15 Pre-test and Post-test comparison on Variable Information need ........ 259
Table 9.16 Pre-test and Post-test comparison on Variable- Research Question Framing ........................................................................................................ 259
Table 9.17 Pre-test and Post-test comparison on Variable Research Question ...... 260
Table 9.17 Pre-test and Post-test comparison on Variable Encyclopaedia .......... 260
Table 9.18 Pre-test and Post-test comparison on Variable Information Source – Popular Magazine ................................................................. 261
TABLE 9.19 Pre-test and Post-test comparison on Variable Interlibrary loan .... 261
Table 9.20 Pre-test and Post-test comparison on Variable Significant word ....... 262
Table 9.21 Pre-test and Post-test comparison on Variable Catalogue- Search Option ................................................................................................................. 263
Table 9.22 Pre-test and Post-test comparison on Variable Synonyms ............ 264
Table 9.23 Pre-test and Post-test comparison on Variable Boolean Operator ...... 264
Table 9.24 Pre-test and Post-test comparison on variable Boolean Operator “or” 265
Table 9.25 Pre-test and Post-test comparison on Variable Truncation Symbol ... 266
Table 9.26 Pre-test and Post-test comparison on Variable Controlled Vocabulary... 266
Table 9.27 Pre-test and Post-test comparison on Variable Citation Elements ....... 267
Table 9.28 Pre-test and Post-test comparison on Variable Help Devices .......... 268
Table 9.29 Pre-test and Post-test comparison on Variable on Reading Citation ...... 268
Table 9.30 Pre-test and Post-test comparison on Variable Relevant Information .... 269
Table 9.31 Pre-test and Post-test comparison on Variable Verbatim Information ... 270
Table 9.32 Pre-test and Post-test comparison on Variable Contradictory Information ............................................................................................................. 270
Table 9.33 Pre-test and Post-test comparison on Variable Evaluation – Date of Source ............................................................................................................. 271
Table 9.34 Pre-test and Post-test comparison on Variable Evaluation-Website..... 271
Table 9.35 Pre-test and Post-test comparison on Variable Evaluation-Books and Periodical ........................................................................................................ 272
Table 9.36 Pre-test and Post-test comparison on Variable Fee based Information ... 272
Table 9.37 Pre-test and Post-test comparison on Variable Referencing .......... 273
Table 9.38 Pre-test and Post-test comparison on Variable Citation Style ........... 273
Table 9.39 Pre-test and Post-test comparison on Variable Plagiarism .............. 274
Table 9.40 Pre-test and Post-test comparison on Variable Copyright ............... 274
Table 9.41 Pre-test and Post-test comparison on Variable Intellectual Property Rights .................................................................................................. 275
Table 10.1 Percentage of responses on Usefulness of the Content of Each Session . 277
Table 10.2 Percentage of responses on Confidence in Ability to do Research ....... 279
Table 10.3 Percentage of responses on Practice and Feedback Exercises ........... 280

xiii
Table 10.4 Percentage of responses on Quiz Questions ........................................281
Table 10.5 Percentage of responses on Quiz ..........................................................282
Table 10.6 Percentage of responses on Study Materials and Hand-outs ..............284
Table 11.1 Results showing Percentage of Correct answers for Research process ...295
Table 11.2 Results showing Percentage of Correct answers for Research skills......299
Table 11.3 Scores of Experimental and Control Group on Pre-Test and Post-test for Research Process........................................................................................................... 306
Table 11.4 Scores of Experimental and Control Group on Pre-Test and Post-test for Research Skills.................................................................................................................. 307
