LIST OF FIGURES

Figure 2.1 Kuhlthau’s Information Search Process Model ........................................ 28
Figure 2.2 Components of Information Literacy Skills ........................................ 34
Figure 2.3 Aspects of Research Process ............................................................. 38
Figure 2.4 Aspects of Research Skills ................................................................. 41
Figure 2.5 Structure of the Treatment ................................................................. 45
Figure 4.1 Percentage Wise Distribution of Number of Colleges by Location in Phase I ........................................................................................................ 94
Figure 4.2 Percentage Wise Distribution of the Sample by the Gender of the Students in Phase I ........................................................................................................ 95
Figure 7.1 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills of students from Arts Faculty .......................... 203
Figure 7.2 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills of students from Commerce Faculty ................. 206
Figure 7.3 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills of students from Science Faculty ......................... 209
Figure 7.4 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills of students with Graduate degree ...................... 213
Figure 7.5 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills of students with Post Graduate Degree ................. 216
Figure 7.6 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy Pre-test Scores among the student teachers in Control Group ............................................................... 221
Figure 7.7 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills Post-test scores among the students teachers in Control Group .................................................................................. 225
Figure 7.8 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills Pre-test scores among the students teachers in Experimental Group .................................................................................. 228
Figure 7.9 Frequency Polygons of the Original and the Smoothened Frequencies of Information literacy skills Post-test scores among the students teachers in Experimental Group .................................................................................. 231
Figure 8.1 Bar Graph for student teachers Information literacy skills by Faculty .... 241
Figure 8.2 Graphical Representation of the Mean score of Information literacy skills Post-test of Experimental and Control group ................................................................. 245
Figure 10.1 Percentage of responses on Usefulness of the Content of Session on Research Success and Re-searching ................................................................. 277
Figure 10.2 Percentage of responses on Usefulness of the Content of Session on Research Ethics ................................................................................................. 278
Figure 10.3 Percentage of responses on Confidence in Ability to do Research .... 279
Figure 10.4 Percentage of responses on Practice and Feedback Exercises .......... 280
Figure 10.5 Percentage of responses on Quiz Questions .................................. 282
Figure 10.6 Percentage of responses on Quiz ................................................... 283
Figure 10.7 Percentage of responses on Study Materials and Hand-outs ............ 284
