Acknowledgement

It is by Gods grace and his willingness that I hereby place on record my deep sense of gratitude and reverence to all those who helped and encouraged me to complete this work.

I am deeply indebted to my philosopher and guide, Dr. K. J. Mukherjee for his constant support, encouragement, supervision and freedom to realize my scientific pursuit and having reposed unstinting faith in my abilities. I owe him lots of gratitude for having me shown the path of research. His vision and generosity has seen me through all ordeals. I believe it will be a driving force to accept the challenges cheerfully in all my future endeavors. This piece of work would have been a distant dream for me without him. Thank you very much, Sir.

Many, many thanks to my wonderful teachers at the Centre for Biotechnology. My expedition into the world of Biology started with Prof Aprana Dixit and Prof. Rakesh Bhatnagar who introduced me with the diverse fields of biotechnology. My heartfelt gratitude to Prof. K. B. Roy, Prof. Uttam Pati, Prof. Santosh Kar, Maitra Sir and Prof. Rajiv Bhat for their fabulous teaching which greatly enriched my knowledge. Special thanks to Prof. Rakesh Bhatnagar for extending his lab facilities unconditionally.

I would like to express my gratitude to Dr. Devapriya Choudhary for his insightful and scintillating discussions over cups of tea. The incumbent and the former chairpersons of this Centre always worked hard to generate all necessary facilities and conducive environment. Long live this effort.

I would like to express my heartfelt gratitude to my sisters Savita, Sumit and brother-in law Bhupender Sandhu for their constant encouragement and support.

‘Pooja’ my cherished companion of life needs special mention for her untiring support and charm that encouraged me to pursue my work. While I was involved full time in research, she managed the home front single handedly and relieved me of many responsibilities. I owe her lot of gratitude for bringing wonders to my life. “Thank you my love”.

Ishita ‘My daughter’ has been the sweetest gift of God. In my most tiring and difficult times her playful and innocent moments brought me volumes of smiles. ‘Gudlu’ I missed you a lot.
