ACKNOWLEDGEMENT

The knowledge also that large numbers of people think of one with affection is very soothing and is a powerful antidote against defecation and frustration.

- NEHRU

It is indeed like a dream come true, when I see my academic pursuit before me in the type script form, for the award of distinction. The studied, formal writing for an academic award is a tremendous task, involving, as it does, a lot of planning, long and laborious laboratory experimentation, hunting for expertise and guidance, seeking cooperation for accomplishing completion of the form derived, elimination of the blind errors, the printers' devil, looking forward to moments of inspiration and benediction from the loving patrons. Obviously, it is a matter of immense pleasure and pride to remember them gratefully here, while winding it up for submission to the Alma Mater.

First of all, I owe a deep debt of gratitude to Prof. S.G. Tandon, Head, School of Studies in Chemistry, Ravishankar University, Raipur (M.P.), for having kindly placed the entire available scientific resources and the
battery of learned University personnel to my ready aid and assistance. Naturally, it needs some specific mention, especially of the expertise personnel. It is a proud pleasure, therefore, to express my indebtedness to Prof. R.K. Mishra, Prof. V.K. Gupta, Dr. J.S. Tiwari and Dr. G.S. Pandey, of the Department and Dr. H.S. Kar of Govt. Autonomous Science College, Raipur. My thanks are also due to the authorities of Ravishankar University, Raipur, for the award of contingent grant of Rs. 2000/- during my research tenure.

Next to the Professors of Chemistry of my Alma Mater, I owe further a debt obligation to Prof. K.N. Munshi, D.Phil., D.Sc., Department of Chemistry, Nagpur University, Nagpur, who very generously extended me his expertise advice, unsparing and ever available help in pleasing manners from time to time, in his own fatherly and dialectic way. He is an unforgettable name of my academic career. Besides, Dr. (Mrs) Katkar and Dr. Juneja of the Department, too assisted me in the progression of my work. My grateful thanks to both of them, for their valuable good offices to me.

Dr. G.L. Mundhara, Reader, School of Studies in Chemistry, Ravishankar University, Raipur, aptly deserves my special obligation, for under his competent, close and assiduous, discerning guidance, I have completed this scientific Thesis of mine, in such an excellent format, as it is with all possible graphs, charts, tables,
statistics, pictorial diagrams and a number of allied illustrations and representations, with a view to setting it off from the common place descriptions. I am specially proud of my able guide, for his unsparing pains, exhaustive expertise, strictly authentic revision and supervision, progressive counselling and guidance, constructive comments and all that bears upon the special value of my work. By the way, I can not forget the sparks of love and sympathy of Mrs. Mundhara for me, just a student.

I feel it a duty to inscribe my gratitude to the authorities of MAPCOST, Bhopal and L.I.T., Nagpur for helping me to use the literature facilities available in their library.

I will take this opportunity to express my grateful thanks to the Principals of Arts and Commerce Girls' Degree College, Devendra Nagar, Raipur and St. Thomas College, Bhilai, for their ready accessibility, responsive attitude, all the while and very generous cooperation.

I shall be failing in my duty, if I do not express my sense of grateful appreciation for the considerable pains, meticulous care, impeccable impact, timely promptitude, deep sense of responsibility and pleasing manner on the part of the following gentlemen, who studiedly dabbled in the accomplishment of my Thesis, in its type script form, illustrative sketches and graphs, xerox copies and the allied details. These gentlemen are: (1) Mr. G.V. Malvankar - Sketchman, (2) Mr. Prabhat Chandra and Mr. Jabir Husain
(iv)

(M/s. Law Book Binder) – Xerox copy preparers and (4) Mr. Manoj and Mr. Gautam (Bhilai) – Computer Masters.

In fine, I would like to extend my best regards and hearty love to my home-people who have always given a warm pat on my back to go ahead in the troubled waters and steer clear through the rocks and shoals, and more often than not, extend a hand to share at intricate points. In this home alignment, my parents-in-law, Mrs. and Mr. Dhir, and my parents, Mrs. and Mr. R.K. Sethi, crown the recipients of my special regards, naturally for their words of affection, fervent encouragement, warm wishes of excelsior, and blessings. Next to these nearest and dearest members of my home, naturally stands high – Dr. R. Dhir, my loving husband, by them, aside. My deepest debt of gratitude to him, for all that he did for me, and it makes a good list. Yet a good share of my grateful thanks, is also due to my younger brothers and cousin – Rubin, Jubin and Nitin, respectively.

I will like to exhaust this office of Thanks giving, eventually by making a special mention of Mr. R.M. Sharma, Miss Parminder Kaur, Dr. (Mrs) Sangeeta Jha, Dr. (Miss) Lata Cherian, Dr. (Miss) Preeti Kaur and Miss Komal Loomba, the research fellows, whose cheerful company in my moodless hours, attitudanized me for advancing my work, generally wedded to isolation and abandonment.
If my memory of gratitude has stumbled somewhere, my sincerest apology to him/her.

Please pardon.

RAIPUR

Dt. September 23, 1991

Lovina Sethi
Research Scholar,
School of Studies in Chemistry,
Ravishankar University,
RAIPUR (M.P.) 492.010.
