ACKNOWLEDGEMENT

First of all I pay all my homage and designate my emotions to the lord almighty whose blessing promotes me to accomplish this interesting task. This task require efforts from many people without them it would not have been completed.

I am extremely obliged to Dr. Rahul Mayee, for constantly inspiring me and supervising my doctoral research work. It needs to be mentioned that without his kind guidance as well as brilliant scrutiny this work would not have seen the light of the day.

I am thankful to Dr. VedPrakash Patil Pharmacy College, Goerai Tanda, Aurangabad to carry out my research work.

My gratitude is due to Dr. R. K. Jat for his motivation in this endeavor. Without his inspiration and observation, the present doctoral work would have been mere imagination.

I feel deep sense of gratitude to Dr. Piyush Yenkar for his valuable guidance alighting my doctoral path.

Let me express my gratitude to all my family members, my father Murlidhar Nawale, my mother Meera Nawale and my younger brother Kiran Nawale who encouraged me.

Last but not the least my sincere appreciations go to Tushar Salunke, Swapnil Shirode and Ritesh Chavan for their valuable assistance.
