CONTENTS

PREFACE

Chapter 1: INTRODUCTION
Retention
Information Storage
Semantic Memory
Measurement of Retention
Theories of Retention or Forgetting
Theories of Retroactive inhibition
  Perservation Theory of Muller & Pilzecker
  Webb's Theory of Transfer & Disruption
  McGeoch's Theory of Reproductive Inhibition
  Two-factor Theory of Melton & Irwin
  Gibson's Theory of Generalization - Discrimination
  Underwood & Postman's Unlearning - Recovery and
  Response - competition Hypothesis
  Postman's Set to Respond and Generalized Competition
  Keppel's Non-specific Unlearning
  Adam's concern for NLM

Determinants of Retention or Forgetting
  Degree of Original Learning
  Influence of Length of Lesson
  Nature of Learning Material
  Recency
  Arousal and Affectivity
  Personality Dimensions
  Field Dependence / Independence
  Locus of Control
  Frustration

Chapter 2: STATEMENT OF THE PROBLEMS

Chapter 3: METHODOLOGY

The Sample

Instruments of The Study
  Measurement of Frustration Potential
    (Frustration Test by Chauhan & Tiwari)
  Measurement of Intelligence
    (Cattell's CF Test, Scale 3)
  Measurement of Field Dependence/ Independence
    (HFT by Panitkar & Helode)
  Measurement of Locus of Control
    (Helode's I E C R Scale)
Measurement of Retention
(An unseen passage of 50 words)

Experimental Design of the Study
Procedure

Chapter 4: ANALYSIS OF DATA
Effect of Individual Factors
Analysis in Relation to Field Dependence/Independence
Analysis in Relation to Internal/External Locus Of Control
Analysis in Relation to Induced Frustration
Regression Analysis

Chapter 5: DISCUSSION - I
Effect of Individual Factors
Retention in Relation to Field Dependence/Independence
Retention in Relation to Locus of Control
Retention in Relation to Induced Frustration
Relative Roles of Independent Variable in Relation to Retention

Chapter 6: DISCUSSION - II
Combined Effect of Field Dependence/Independence and Locus of Control on Retention
Combined Effect of Field Dependence/Independence and Induced Frustration on Retention
Combined Effect of Locus of Control and Induced Frustration on Retention
Combined Effect of Field Dependence/Independence, Locus of Control, and Induced Frustration on Retention

Chapter 7: SUMMARY
REFERENCES
APPENDICES
