ACKNOWLEDGEMENT

It is a moment of gratification and pride to look back with a deep sense of contentment and gratitude at the long traveled path, to be able to capture some of the finest moments, to be able to thank the infinite number of people, some who were with me from the beginning and some who joined me later, whose love and blessing have made this day possible for me.

It gives me an immense pleasure to record my deepest appreciation and profound gratitude to my learned and distinguished Guide Prof (Dr) S.S. Agrawal for his untiring efforts, which have cultivated in the form of thesis. He is the one who showed me the light in the darkness of ignorance & helped me to carry out my project work successfully. He has always gone out of his way to remove all the obstacles that have ever crossed my path. He has been a guide who made me decide to go with the work and pursue my area of interest. I must avow my sincere gratitude and indebtedness to him for his constant encouragement at every stage of this work. His valuable advice, pertinent suggestions and constructive criticism have channeled my vision to the varied scientific problems and have helped me in giving this study a final shape. It is my privilege to have worked under him. He is my ideal and I shall be indebted to my honorable guide throughout my life.

I must avow my sincere gratitude and indebtedness to Prof (Dr) S.K. Gupta for his constant encouragement at every stage of this work. His valuable advice, pertinent suggestions, innovative ideas, constant encouragement, and constructive criticism have channeled my vision to the varied scientific problems and have helped me in giving this study a final shape which added to the standard of this thesis. His motivating & inspiring talks & attitude towards life makes him my ideal. It was a privilege and a pleasure to work with a thought provoking and inspiring personality. I shall be indebted to him throughout my life.

I would like to convey my special regards to Dr. Sushma Srivastava for her kind guidance and expertise, which contributed a lot to the successful completion of this study. Her timely support, suggestions & guidance during the project were of great help. It was really a
pleasure to work with her. Her devoted participation in the research work is duly acknowledged and appreciated. I will always be grateful to her.

I would like to acknowledge **Department of Science and Technology** DPRP programme in collaboration with promed exports Ltd New Delhi for financial assistance.

I convey my thanks to all the staff members (teaching and non-teaching) for their constant help and cooperation at all stages of my work.

I wish to sincerely thank **Dr. Ashok Mukharjee (Histopathologist)**, New Delhi, for his invaluable help, which led to the successful completion of this research work.

I express my deep appreciations and profound thanks to all the faculty members, ocular pharmacology laboratory staff whose cooperation enabled me to complete this project work.

I would like to offer my sincere thanks to my colleagues and friends Ashutosh Aggarwal, Binit, Ram, Dilip, Shirish, Mohit and Avinash. A special word of thanks must go to my friends Archana, Ritika, Sakshi, for their kind support and for their kind help throughout the work. They helped me immensely by giving motivation and encouragement during the hard times. They made the journey so smooth and beautiful just by being a part of it.

I feel short of words in expressing a deep sense of gratitude to my Husband Mr. Ali Hasan, my Daddy, Mummy, Papa-in-law and Mummy-in-law, Saleem Bhaiya, Bhabhi, Nadeem, Zainab, Shan, M. Hasan Bhaiya, Bhabhi, Abbas, Abul, Aliya and Mushahid to whom I owe my life for their love, blessings, moral support and without whom no endeavor of mine would have been successful during the span of my learning.

This piece of work will never be accomplished without the blessings of **Almighty GOD**, which paved my way towards the right path. I also acknowledge the people behind my life for inspiring, guiding and accompanying me through thick and thin of my journey.
Besides these, there are several other people who have knowingly or unknowingly helped me in the successful completion of this project. I thank all those people for every ounce of efforts they contributed and express my apology that I could not mention personally one by one.

I am deeply indebted to all animals whose lives were sacrificed during this research work. I hope that the precious life of the animals used during this project would not be in vain; it would contribute to the development of the science in one way or another.
