ACKNOWLEDGEMENT

First and foremost, my heartfelt gratitude and indebtedness goes to my supervisor, Dr. K. N. Saraswathy for her supervision, advice, and guidance throughout the work of present study as well as giving me a chance for earning extraordinary experiences which help me in bringing my research work in the form of thesis. Above all and the most needed, she provided me constant encouragement, support and motivation in various ways to complete my research work on time. The present study could be completed only due to her spontaneous help, supervision, inspiration and encouragement whenever needed. Without her help and support I would not have reached where I am today. I thank you madam for being my supervisor.

I wish to express my warm and sincere gratitude to my co-supervisor, Dr. Shantanu Sengupta for giving me important suggestions and guidance which turned to be an immense gain in the present study. I also would like to express my sincere gratitude to my advisors Prof. P.K. Ghosh (former Head of the department) and Prof. M.P. Sachdeva for their guidance, help and motivation before and during my research work. I also would like to sincerely thank Prof. S.L. Malik, the present head of the department for giving me the opportunity and facility to carry out the present research work. I am deeply indebted to Prof. A.K. Kalla and Prof. V.R. Rao for their unending guidance, invaluable suggestions and continuous encouragements. I would also like to thank Dr. P.R. Mondal and Dr. B. Murry for helping me at the time when doubts entered my mind.

I am obliged to express my heartfelt gratitude to my dear senior Dr. Yaiphaba who guided me about my research topic, his immense support and help during my research work. I also wish to thank my seniors ex-research scholars of the Lab Dr. Rupak, Dr. Deepti Sukhla, Dr. Mansi, Dr. Ekata, Dr. Kiranmala, Dr. Harpreet, Dr. Vipin, Dr. Aastha, Dr. Gagan, Dr. Deepti, Dr. Asghar, Dr. Ratika, Dr. Somibabu, Dr. Achoubi, Dr. Jyoti, Luxmi and Neikei for their guidance, help, inspiration, and immense support.

I am thankful to my friend Priyanka Garg for her help and giving me her valuable time for all the statistical analysis of data and patiently answering all my queries of this thesis. I am also thankful to my colleague Dr. Kabita, my juniors Lovejeet, Vani, Aradhana, Simi, Seerat and Sunil who helped me a lot during DNA extraction and
analysis. I would like to thank Arundhati and Sneha summer trainee students who helped me in lab work. I am also thankful to my friend Priyanka Khurana and all my juniors of the lab Amitabh, Piyosh, Rajnish, Astha, (L) Sonia, Shipra, Siuli, Soumi, Mahima, Hemlata, Swati, Shibani, Shwati, Anil, Anu, Motilal, Suniti, Ketaki, Mitali and Seema for their love, care and co-operation. I am thankful to the lab attendants Ajay, Vipin and Kaushal for their assistance.

I am also grateful to my brother-in-law Mr. Thiyam Dinesh and brothers Mr. Yengkhom Ojit and my friend Mr. Baleshwor for giving me a selfless help during sample collection. I also owe my sincere thank to my friends Ms. Aseibam Shandyarani, Ms. Maibam Radharani, Ms. Naorem Ambavati and their families for helping me to carry out my field work successfully. I also owe my sincere thank to Mr. Joychand, one of my subjects for rendering me his help in sample collection. I also wish to thank Centre for Social Development (CSD), Manipur for allowing sample collection. I am very thankful to all the laboratory technicians/members of Cecil Medical Laboratory, RIMS Road, Imphal for their help and immense support and co-operation during biochemical analysis.

I want to express my heartfelt gratitude to my parents for their full support in bringing up this research work. I thank you mom for the years of support and the love you have given to me and instilling the hard work ethic in me. I thank you mom for your unending blessing hand on my head. I thank you for all you have done for me. I would like to show my immense gratitude to my dear elder brother Sureskumar who was the greatest support of all and encouraged me to take up this very difficult and uncharted territory. I also like to thank my sister-in-law Renu, my sister Sunita and brother Sunil who have always been encouraging and supporting me throughout each and every step of my life.

The financial support of the University Grants Commission (UGC) in the form of Junior Research Fellowship is deeply acknowledged. I would like to acknowledge all those who are involved directly or indirectly and whose names could not be mentioned individually, for their contributions and wishes towards accomplishing my present research work. Last, but not the least, I would like to thank the people of Meitei Community, Manipur who voluntarily participate in the study.
