Acknowledgement

I would like to place on record my deep sense of gratitude to my research guide Dr. Shamala Ratnakar Associate Professor of English, Karnataka University, Dharwad. I am grateful to her for accepting me as her student when my allotment was in doldrums under some other guide. She was kind enough to allow me to continue with the topic which I had chosen earlier. It was my good fortune which brought me under her care, concern and nurturing. She being, the fellow member of Indian Association for Science Fiction Studies Vellore, allowed me, and inspired me to go ahead with the unexplored area of science fiction studies. She acquainted me to many stalwart scholars of science fiction studies like Prof. Narahari of Mysore, Prof. Purushattam of Vellore and Prof. Rajshekar Bhoosanurmath of Vaibhavi Institution, Dharwad and made me to attend innumerable conferences, Seminars, Workshops and asked me to be the member of various science fiction forums, journals and organisations. She had a very special concern for me. As a gender friendly research guide, who believes in empowering women teachers like me from the Kendriya Vidyalaya stream to pursue research. When I was teaching Science fiction lessons to the students of Kendriya Vidyalaya at +2 Science stream level, I was dabbled in science fiction studies. It was my Guide who inspired me, and engineered my thought to construct this project, bringing finally an invaluable piece of work. I delved into the science fiction genre, and explored in it. So with a deep sense of gratitude and everlasting indebtedness I wish to express my sincere thanks to my esteemed Guide and instructor under whose guidance the present study is undertaken. She not only provided me the original impetus for the work but also endowed much of her precious time and attention in assisting me during the conduct and completion of this dissertation.

I would like to record the help extended to me by Senior Professor Chairperson of the Dept. of English Dr. Vijaya Guttal for her critical remarks and valuable suggestions given at the time of preparation of my thesis. I thank Dr. M.G. Patil Associate Professor and Sri. I.A. Kittur for their support & help.
I would like to thank Dr. B.M. Ratnakar, Professor of political science & special Officer, Planning & Development, Karnataka University, Dharwad for his brotherly concern & support in the completion of my research work.

I must acknowledge the various conferences conducted by Indian Association for Science Fiction Studies IASFS every year since 2007 onwards. I have been a regular participant and presented papers on science fiction studies. These conferences provided me various opportunities in academic forums and created numerous avenues to formulate my perspectives for the fruitful analyses of the study. I wish to thank the President, Secretary of IASFS and Organisers who provided opportunities for researchers in this area.

Books are golden treasures. In modern-age of communication technology books and internet sources cover a great deal of research data. In this regard, I would like to thank the librarians of the following Universities – Karnataka University Dharwad, Bombay University Bombay, Mysore University Mysore, Pondichery University Pondichery, Osmania University Hyderabad, CIEFL Hyderabad. Procuring the rarest and unavailable books. I had access to a great deal of material from media sources of computer Lab, Karnataka University Dharwad. I thank Mr. Manjunath Shiri and Mr. Pawar who helped me to access the materials.

I am deeply grateful to my students of Kendriya Vidyalaya No.1 Rajnagar Hubli, ‘Science Fiction Project Group’ who provided invaluable assistance in computer aided tasks. My students specially Vaishnavi, Chinmaya Lakshmi, rest others Sainath, Kalmesh, Ajay, Omkar, Sankeerthan joined their hands to complete technical part of the project.

On my professional carrier, I owe thanks to the principal of my Vidyalaya and Colleagues who encouraged me to undertake such project in between hectic schedule of the Kendriya Vidyalaya.
I owe special thanks to Mr. Sanjay Shettennavar, Former Registrar Evaluation, presently serving as Administrator, KADA Belgaum for his invaluable support and encouragement in the initial stage of the project.

I also owe special thanks to my family. I must honestly record the pain borne and the patience displayed by aged Mother Smt. Shantabai Math who kept me in good cheer throughout my effort. She always blessed me during my professional education and took care of family responsibilities. Thanks to small children kingdom of my family; Anishkumar and Amoghavarsha, ever smiling who become self-reliant, have managed their studies independently without me, especially during their exam time.

The complex nature of this work always requires several unavoidable assignments; consist of outdoor visits, meeting Scholars attending conferences far away journeys and various technical tasks associated with it. During these events my husband Mr. Vishwanath Vastrad accompanied and helped me inspite of his busy scheduled profession. I emotionally depended on him that gave me strength and sweetened my temperament; it turned the complexities to simplicities at crucial times.

I would like to thank my fellow Research Scholars, Dr. Asha Terdal, Dr. Asha Rabb, Dr. Tejaswini Naryankar, Dr. S.S. Patil, Ms. Stella Steven, for their concern and creation of congenial atmosphere in which I revelled.

Last but not least, I acknowledge the immense help and cooperation given to me by my brothers and sister. I thank them all.

Mrs. G.M. Prashantha Kumari
