LIST OF PLATES

Plate 2.1  Photograph of *E. suratensis*.
Plate 2.2  Microphotograph showing chromosome of *E. suratensis* (2N = 48).
Plate 2.3  Photograph showing karyotypes of *E. suratensis*, based on Plate 2.2.
Plate 2.4  Microphotograph showing polyploidy in somatic cells of *E. suratensis*.
Plate 4.1  Capturing methods of *E. suratensis* in Goa waters.
   (a) Operation of barrier net (b) Drainage of Khazan, and operation of filter net at the sluice gate of Khazan.
Plate 5.1  Photograph showing the submerged grass with settled suspended organic matter, epiflora and the epifauna.
Plate 5.2.1 Photograph showing eroded caudal fin (Fin rot disease).
Plate 5.2.2 Photograph showing necrotic lesions (Epizootic Ulcerative Syndrome).
Plate 5.2.3 Microphotograph of a ciliate parasite *Trichodina* sp.
Plate 5.2.4 Microphotograph of a monogenean parasite *Ancyrocephlus* sp.
Plate 5.2.5 Microphotograph of a copepod parasite *Caligus* sp.
Plate 5.2.6 Photograph showing male (small) and female (bigger) isopod parasite *Cymothoa krishnai*.
Plate 6.1  Photograph showing abnormal ovaries (a) single functional ovary (b) Upper non-functional ovary.
without opening to oviduct and the lower normal functional one.

**Plate 6.2** Photographs showing sexual differentiation in the urino-genital papilla (a) Female (b) Male.

**Plate 6.3** Photograph showing different stages of intra-ovarian ova of *E. suratensis*. stage -I 35.70 μ, stage - II 57.12 μ, stage - III 99.96 μ, stage - IV 142.80 μ, stage - V 199.92 μ, stage - VI 321.30 X 242.76 μ, stage - VII 749.70 X 442.68, stage - VIII 1049.58 X 585.48 μ, stage - IX 1435.14 X 756.84 μ, stage - X 2042.04 X 1035.30 μ.

**Plate 6.4.1** Photograph showing different maturity stages of ovary of *E. suratensis*.

**Plate 6.4.2** Photograph showing different maturity stages of testes of *E. suratensis*.

**Plate 6.5.1** Egg mass of *E. suratensis* layed on wooden stick.

**Plate 6.5.2** Photograph showing numerous nests built in the sediment by *E. suratensis*.

**Plate 6.6.1** Parent guarding the wrigglers.

**Plate 6.6.2** Close view of the wrigglers and the nest after the parent is disturbed.

**Plate 6.7.1** Spawn reared in the laboratory.

**Plate 6.7.2** Photograph showing the growth of spawn to fry stage.

**Plate 7.1** Photograph showing the storage of lipid in fat bodies along the intestine.
