ACKNOWLEDGMENTS

My salute to my late grandfather, Mr. S.Y. Bukhari and Mrs. K.S. Bukhari, and to my late aunt Miss. Fatima Bukhari, for being instrumental in laying a sound basic foundation of my academic career.

I express my deep sense of gratitude to my guide Dr. G.N. Nayak, Reader, Marine Science Department, Goa University. Though a strict disciplinarian, he guided me with great patience all through my research career lending all the support I ever needed. His constant motivation and encouragement have been immensely helpful. He has put in long hours of time in getting this work together and making it possible. He gave me the responsibility of research in a challenging subject and also the independence in carrying it out. This has made me emerge out a more confident person. My thanks to him are beyond words.

I shall always remain extremely grateful to my parents Mr. Sayed Yusuf Bukhari and Mrs. Naseema Bukhari for standing by me. Their constant affection and continuous support has been a great moral boost in my work.
Of all those people, who greatly influenced my academic career, my most sincere gratitude to all my teachers.

My sincere gratitude to Dr. P.R. Dubhashi, Vice-Chancellor, Goa University for inspiring the work. I am extremely thankful to Prof. U.M.X. Sangodkar, Head of Marine Science Department, Goa University for providing me all the necessary facilities available in the department. He has been very kind and encouraging during my study period.

I would like to record my sincere thanks to my teacher Prof. V.C. Chavadi, Head of Geology Department, Karnataka University, Dharwad for developing research instincts in me, and to Dr. T.S.S. Rao, former Head of Marine Science Department, Goa University for giving me an opportunity to work at this department.

I am grateful to Dr. B.N. Desai, Director, National Institute of Oceanography, Goa for kindly allowing to utilize the required facilities at the institute and I remain grateful to Shri R.R. Nair, Head, Geological Oceanographic Division, NTO for the facilities especially in providing X-ray diffraction facility at the institute.

I am highly indebted to my uncle Dr. M.V.M. Wafar, Scientist, NTO, for getting done the chemical analysis of
sediment samples at Universitet De Bretagne Occidentale, Brest, France. But for this kind gesture my study on geochemistry would remain incomplete. My profound thanks to him. Dr. N.H. Hashimi, Scientist, NIO has been very helpful in getting the X-ray diffraction analysis and in interpreting the results of mineralogy. Providing extensive discussions on the subject, he was a constant source of inspiration all the way through. I owe most of the discussions on geochemistry to Shri R. Nagendranath, Scientist, NIO. I am grateful to him for providing vast literature and an insight into the subject. Dr. C.S. Murty, Dr. Prasannakumar, Dr. P.C. Rao, Scientists, NIO were very helpful in discussing various aspects of the work. I place my sincere gratitude to all of these personalities for helping me develop my subject knowledge. Mr. Tapaswi, Chief Librarian, NIO has been very kind and helpful in providing the reference material and library facilities. My sincere thanks to him and his staff.

At this University, Drs. H.B. Menon and S. Upadhyay, Lecturers, Marine Science Department have been a constant source of encouragement. Dr. P.S. Raikar, Head, Geology Department gave valuable suggestions and Dr. K. Mahender, Lecturer of the same Department provided the programme for factor analysis. My special thanks to all of them.
I owe my gratitude to my colleagues, Ms. R. Fernandes, Ms. K. William, Mr. S.S. Bhatt, Ms. S. Yashoshri and Mr. V.V. Aigal for their kind help during the field and laboratory work. My most sincere thanks are due to Mr. C. Aftab, Mr. R. Fernandes and Mr. M. Girap for their selfless involvement in finalizing the thesis. But for their enthusiastic and cordial help, it would not have been possible to get the thesis to its present state. I shall always remain grateful to all of them. It is not just a courtesy but my duty to place on record my sincere thanks to the non-teaching staff of the Marine Science Department. Mr. Shashikant Parab has not only been helpful in arranging the laboratory and field materials much needed for the present study but also has been a source of encouragement. Mrs. Monica Soares and Mr. Dessai have always been cheerful in dealing with concerned official matters. Mr. L. Martin, G. Ulhas, G. Nanda, Mrs. Ruby Fernandes, Mr. Sebastian, Mr. Gonsalo, Mr. Daniel have all been very helpful whenever needed. I express my thanks to all of them. Ms. A. Balamani, Ms. C. Shakuntala, Mr. V. Anthony have helped in many little but memorable ways. Thanks to them all.

I would like to record my gratitudes to Prof. S. M. Borges, Head of Geology Department, S.P.C. College, Margao.
During my short tenure at the college I have benefited a lot from my acquaintance with him.

My special thanks to my aunt Dr. Sayeeda Wafar, Scientist, NIO for all the encouragement and help that has gone a long way in carrying out this work. My profound thanks to Mr. B. R. Rao, NIO. He has given many valuable suggestions and has helped in deciphering some of the results.

I am thankful to Mr. J. Cotton (U.R.O., France) for carrying out the chemical analysis, and to Mr. Girish Prabhu, NIO for the x-ray diffractions. Mr. Rajaram Patil and Mr. R. L. Chavan are specially thanked for their immense patience in typing the text and drafting the figures respectively.

My most special thanks to my friends Mr. Arun Kodli, Dr. Pramod Hanamgond and Mr. C.R. Bannur for their constant encouragement and moral support.

Not mentioned are the names of all those friends who have been helpful in many different ways. My thanks to all of them.

I acknowledge the financial assistance in the form of Junior Research Fellowship by the Ministry of Environment,
Forest and Wild Life, Govt. of India and the kind help of the administration of the Goa University.

Sayed Jamal, Bukhari
