ACKNOWLEDGEMENT

Now that this work has reached its completion, it is my pleasant duty to acknowledge with gratitude the guidance, help and assistance given to me by several of my Professors, Colleagues and friends.

Dr. G. J. S. Abraham, former Professor and Head, Department of Pharmacology, former Dean, Goa Medical College, Goa and former Dean, Padmashree Dr. D. Y. Patil, Medical College, Nerul, Bombay, deserves my first and foremost gratitude for his guidance, supervision and encouragement throughout the progress of this work. But, for his constant and committed interest, I would not have been able to see this work to fruition.

Next I must acknowledge my gratitude to Dr. V. G. Dhume, Professor and Head of the Department of Pharmacology who was kind enough to provide me not only necessary facilities for the pursuit of my studies but also was a constant source of encouragement.

The critical comments of Dr. (Mrs.) Rosa S. Diniz D'souza, Assistant Professor Department of Pharmacology always came to my rescue and helped me streamline my thoughtflow and introduced the required lucidity in the presentation of my ideas and I am indebted to her.

Dr. P. Bahadur, former Professor and Head, Department of TB and Chest Diseases, Goa Medical College and former Director, JIMPER Pondicherry deserves my grateful thanks for his initial encouragement. So also Dr. A. S. Bagga,
the former Professor and Head of the Department of TB and Chest Diseases, Goa Medical College and other faculty members deserve my thanks for their co-operation.

No experimental study can be pursued without the aid of technical staff. In this connection, I must particularly mention the co-operation and assistance given to me by Shri M. Lokiah and Shri V.T. Gunjikar and other laboratory staff of the department of Pharmacology. I am grateful to them.

Shri P.L. Dhongade, Librarian, Goa Medical College and Shri Desai, Librarian, Goa College of Pharmacy and their staff members deserve a special mention but for their valuable assistance and co-operation I would not have been able to procure the relevant research material in time. I also acknowledge with thanks the assistance rendered to me by the librarian and staff of the National Medical Library, New Delhi.

My gratitude also goes to Professor Sundaram of Department of Bio-statistics, All India Institute of Medical Sciences, New Delhi, for his advice and help in the evaluation of data Dr. G. Jagadeesh, Staff Scientist F.D.A. of U.S.A. readily provided reprints of the required research material throughout the duration of the study. He really turned out to be a friend indeed. I am extremely grateful to him both as a friend and as a Professional colleague. I am also thankful to Dr. P. Rama Rao, Department of Pharmaceutics, Institute of Technology, B.H.U. Varanasi for his kind help and encouragement.
Dr. V.J. Monteiro, former Dean and Dr. W.K. Belokar the present Dean, Goa Medical College, and administrative staff of the Goa Medical College deserve a special mention for their kind co-operation and help.

I shall be failing in my duty if I do not acknowledge the valuable contribution of M/s. Cipla, M/s. Astra IDL and M/s. Sterling Winthrop, U.S.A. in the conduct of my research. These companies were kind enough to provide me free gift samples of salbutamol, terbutaline and isoproterenol respectively I am grateful to them.

During the course of the study I have benefitted from suggestions from my other colleagues in the department of Pharmacology, Goa Medical College I am grateful to all of them.

My parents, brothers and their family members deserve my gratitude for their constant help for their cooperation and encouragement throughout my educational and professional career. Words are inadequate to acknowledge my gratitude to them. Last but not the least I must acknowledge with thanks the help rendered to me by my wife Dr. (Mrs.) Sheela Srinivasan. She patiently bore the loneliness and carried the burden of managing my two mischievous sons Shashank and Shreyas to provide me with a proper atmosphere for my study and research.

(B.P. SRINIVASAN)
