ACKNOWLEDGEMENTS

Alhamdulillah, praised to Allah The Almighty for His love, guidance and providing strength until I completed this Ph. D. thesis.

It gives me great pleasure in acknowledging the support and help of my profound guide Dr. P. H. Parsania: Professor and Head, Department of Chemistry,- Saurashtra University, Rajkot. I consider myself privilege to work under his generous guidance because I got the newer creative dimensions, thinking analyzing capacity and positive attitude, which has always helped me in making things simple and pragmatic too. His keen interest, patience and constant encouragement during my research work have enabled me to put my work in the form of the thesis. Association with him has been a life time achievement for me.

I am also thankful to all faculty members: Prof. A. K. Shah, Prof. V. H. Shah, Prof. H. S. Joshi, Prof. S. Baluja, Dr. M. K. Shah, Dr. Y. T. Naliapara, Dr. U. C. Bhoya, Dr. R. C. Khunt, Dr. F. D. Karia and administrative staff for their encouragement during my research work.

I cannot find words to express my gratitudes and hearty thanks to Jignesh Parsania without whose kind help and support I would not have made so far in my career and also to Dr. Pooja Adroja whose motivation and co-operation at the initial stage of my research providing her knowledge and expertise to assist in understanding the problem.

An appreciation merely with a few words seems to be inappropriate to gratefully acknowledge my seniors as well as juniors: Dr. Jignesh, Dr. Urvish, Dr. Sandeep, Dr. Suresh, Dr. Lina, Dr. Pankaj, Dr. Bharat, Dr. Vrajesh, Ritesh Bhatt, Bhavin, Chirag, Chintan and Jabal for their help and co-operation.

Many hearty thanks go to all my colleagues, for their cooperation and friendly discussion. In particular, I owe my sincere thanks and gratefulness to my colleagues: Dr. Vipul Kataria, Dr. Amit, Dr. Govind, Hasmukh, Sagar, Kapil, Gaurang, Paras, Nirav, Nayan, Vicky, Denish, Satish, Javed, Mayank, Vipul, Hardik, Pankaj, Nayan, Viral and Ashish for their helpful discussions throughout the research work.
I would also like to extend huge, warm thanks to my hostelmates, Dr. Mateen, Nashrudin, Dr. Aves, Dr. Parvez, Dr. Wasim, Basir bapu and Avesh. I am indebted to some of my good friends Shakir, Sadik, Juned, Adarsh, and Jamsheed for their valuable help and support.

I am also indebted to The Directors, RSIC–Chandigarh, ERDA Vadodra and SICART- V. V. Nagar for instrumental facilities.

I express my thanks to Vijyamasi and Maulik for the hospitality extended to me during my research discussion at their home and gave me support ever as like my family members.

Last but not least, I would like to pay high regards to my father Abdul Yunus and mother Raufa, grandparents, uncles, aunts, brother Muzakkir and my cousin sisters for their sincere encouragement and inspiration throughout my research work and lifting me uphill in this phase of life. I owe everything to them. Besides this, several people have knowingly and unknowingly helped me in the successful completion of this project. Though, many have not been mentioned, none is forgotten.

Rizwan Y. Ghumara
