4.1.1 Differential scanning calorimetry 97
4.1.2 Curing kinetics 99
4.1.3 Thermo gravimetric analysis 109
4.2 Experimental 114
4.3 Results and Discussion 114

CHAPTER 5: Preparation, mechanical and electrical study of jute/glass reinforced composites and their physico-chemical study 155-176

5.1 General introduction 155
5.2 Natural fiber composites 157
5.3 Glass fiber composites 162
5.4 Fabrication of jute/glass fiber composites 163
5.5 Mechanical and electrical properties of the composites 164
5.6 Chemical resistance study of composites 168
5.7 Water absorption in boiling water 175

CHAPTER 6: Preparation of co polyurethane films, their mechanical, electrical and physico-chemical study 177-196

6.1 General introduction 177
6.2 Syntheses of copolyurethanes of polyester polyols 183
6.3 Density measurements of copolyurethane films 185
6.4 Mechanical and electrical properties of copolyurethanes 187
6.5 Chemical resistance study of copolyurethane films 190
