ACKNOWLEDGEMENTS

The First and the foremost, I would like to acknowledge MY PARENTS Shri Indra Pal Singh and Smt. Shyamodevi who have created and encouraged me to do this work. I owe this thesis to my parents for their love, support and sacrifice from the very first day of my journey of life.

I understand that behind any successful work, there is a long list of support without whom the task would have been difficult to implement. It is my great pleasure to express deep gratitude to everybody who generously helped me to bring this work to completion.

Academic success is closely related to the choice of the right mentor and advisor. I had the privilege and honor to pursue my Ph.D. studies under the guidance of my supervisor, Prof. S. Annapoorni, Department of Physics and Astrophysics, University of Delhi. I express my deep and sincere reverence to her for the endless motivation and freedom for doing innovative research, and for being a potential source of inspiration at each stage of this thesis research work. The present research could not have been completed without her expert guidance, scientific insight, constant supervision, and intellectual support. I benefited tremendously from her depth of knowledge in many diverse fields. Her confidence in me has been a motivating factor to keep me striving to reach my goals.

I would like to extent my cordial thanks to Prof. R.P. Tandon, Head of the Department of Physics and Astrophysics, University of Delhi, for his encouragement and for providing all the necessary facilities to accomplish my Ph. D. work.

My sincere thanks to Prof. K Sreenivas and Dr. Raman Ramakumar as the potential advisory committee members, for their thoughtful discussions and valuable suggestions during the course of this research work.

I would like to extend my special gratitude to Dr. Subhalakshmi Lamba, Indira Gandhi National Open University, Delhi, Dr. Rajdeep Singh Rawat, NIE, Nanyang Technological University, Singapore, Dr. D. Kanjilal, and Dr. K. Asokan, Inter
University Accelerator Centre, Delhi, for their invaluable discussions, insightful comments and guidance to improve the quality of this work. Special thanks to scientific jokes of Sesh (Prof. T R Seshadri) to keep me cheerful and lively in my low moments.

It has been a great pleasure to work in University Science Instrumentation Centre (USIC), Delhi University for all these years. Thanks to the members of USIC, University of Delhi, for facilitating all the instruments. I also have to mention a very special “thank” to Mr. Mittle, Mr. Harsh Kumar, Mr. Arun Dhaiya, Mr. Rahul Bhardwaj, Mr. Manish Kumar and Mr. Rahul Kumar, Mr. Amit Boora, Mr. Ravinder for their assistance in characterization work.

I would also like to acknowledge the M. Tech Nanoscience and Nanotechnology, University of Delhi for the VSM facilities and all its members: Mr. Anil, Mr. Sunil and Mr. Bijender for assisting in all official formalities.

I would like to express my sincere thanks to my seniors, colleagues and all my lab members Dr. Rakesh Malik, Dr. N. Kamal Singh, Dr. Vivek Verma, Dr. Ambika Negi, Dr. Raksha Sharma Mrs. Manisha, Mr. Lalit Kumar, Ms. Manu Jain, Ms. Neeru Sehdev, Ms. Mansi Dhingra, Ms. Rekha and Mr. Rajan Goyal for their support and continuous encouragement throughout the period of my research.

I would like to express my sincere thanks to my friends “Apurve, Bharat, Sourabh, Surender, Abhitosh, Punit, Vipin, Tarun, Birender, Ishpal,....” for their continuous moral support and wonderful friendship. I wish them best wishes in career and life.

A sincere thanks and appreciation goes to all the technical and administrative staff of Department of Physics and Astrophysics, University of Delhi for being so helpful and cooperative during my tenure as a researcher.

The financial assistance from Council for Scientific and Industrial Research (CSIR), India is gratefully acknowledged.
Words fall short to express my gratitude for the loving encouragement and overflowing blessings I have received from brothers Mr Ravi Medwal and Rajeev Medwal, sisters-in-law Mrs. Anuradha Medwal and Mrs Manju Medwal, sister Mrs Reeta, Brother in law Mr. Beersain Singh, Mr. Shubham Gupta and nephews and nieces (Sakshi, Shubham, Aashi, Priyanshi, Disha, Divyansh, Abhishek).

A warm and very special thank to my close friends Robin Jain, Tejesh Negi, Sandeep Kumar and Harsh. I thank them for bearing me in all bad mood and made me alive during the bad phases of life.

I owe a deep special thanks to my wife Surbhi Medwal who has always been there for me through all the ups and downs, for making me believe in myself and for bearing with me throughout the tenure of the thesis. It is because of her love, patience and understanding that I am at this position.

Date: May 2013

Rohit Medwal
