Acknowledgements...

Life is a journey which provides numerous opportunities and learning experiences which changes the overall perspective and shapes up individual personality across the world. I am very fortunate to live such an experience quite early in my life. This is an acknowledgement towards achievement of my dream and to convey my gratitude to all the people who made it possible!

This thesis had emerged in years of research that has been done since I came to Wildlife Institute of India (WII). By that time, I have worked with a great number of peoples of this institution whose contribution in assorted ways to the research and the making of the thesis deserved special mention.

I am grateful to Sh. P. R. Sinha (Director, WII) for his constant encouragement and support provided to work in “Ecology of Leopard” project from which this thesis was carved out. I am equally thankful to Dr. V.B. Mathur (Dean, WII) for his support extended to the project.

I offer my sincerest gratitude to my supervisor, Dr. K. Sankar who selected me in the project and supported me throughout my field work and thesis writing with his patience and knowledge. I am thankful to him for reviewing my thesis drafts several times and also providing comments and suggestions to ensure timely completion of thesis. I would also like to thank him to allow me to actively participate in tiger reintroduction program in 2008 and having brought out an international publication with me as a co author. Many thanks to Shanti Madam and Krithika (Dr. K. Sankar’s wife and daughter), for their love and support during my stay at Sariska and WII.

I owe my gratitude to my co supervisor Sh. Qamar Qureshi for always a supporting hand for me at WII. I attribute the level of my Ph. D degree to his encouragement and effort and without him, this thesis would not have been completed. I am thankful to him for his advice, supervision, and crucial contribution in all aspects of my research work. His involvement with his originality has triggered and nourished my intellectual
maturity that I will benefit me in future. Thanks to Dr. Neeta Shah (Qamar sir’s wife) for her loving and caring attitude, when I got injured at the time of tiger tracking at Sariska.

I sincerely thank Sh. R. N. Melhotra (PCCF, Rajasthan) for giving permission to work at Sariska; Sh. Somashekar (CCF Wildlife, Rajasthan) for his constant appreciation and encouragement during data collection; Mr. Rajash Gupta (Ex Field Director) and Mr. Sunnayn Sharma (Field Director) who showed faith in me especially at the crucial time of tiger reintroduction and also provided a wonderful home to make base-camp for our team. I would like to thank the entire Sariska Forest Department for their hospitality and support especially at the time of my data collection and tiger tracking at Sariska. Many thanks to Heera, Ram Prasad and Ram Karan (Forest guards), for sometimes cooking food and serving black tea, at Kalighati & Kanakwas chowkies. I especially like to thank Moti lal and Phool Singh (Gate staff) for letting my vehicle in and out from the reserve, as sometimes I also disturbed their sleep too during my night tracking. My dedicated field assistants: Chotu (for his efforts in data collection), Omi (for driving vehicle any time when I needed, even sometimes in rough terrain and also helped me to learn good driving), Jairam (for serving hot food timely even sometimes in mid night) and Mamraj. All these deserve special mention for upgrading my field knowledge and making me smile always.

I would like to thank Haripura, Kundalka and Kiraska villagers especially Omi’s in laws, all priest of Pandupol Temple and family of Pandit ji (Tal Gate) for their hospitality and ensuring homely environment, making my stay more comfortable at Sariska.

Back to WII, I gratefully acknowledge, Dr. P. K. Mathur for his suggestions when I needed, Dr. Y. V. Jhala for his crucial comments in my data analysis, Dr. P. Nigam for his joyful company at the time of tiger reintroduction and constant encouragement and Dr. P.K Malik for appreciating our team work, Dr. S.P. Goyal for identifying rodent species in sariska, Dr. Bilal and Dr. Suresh for their valuable comments in last chapter and Dr. Ramesh for his help, comments and valuable suggestions in habitat modelling analysis. Thanks to Dr. Rawat and Mrs. Bipati Sinha for their help as and
when required, Dr. B.C Choudhury and Nalini madam for their good advices. Special thanks to Dr. S. A. Hussain, Hostel Warden for providing all facilities and peaceful stay in WII old hostel and Prof. V. C Soni for facilitating in the completion of formalities for Ph. D registration till its submission.

I feel obliged to thank staff of WII library: M. S Rana for providing all required facilities in library, Sh. Verma, Mrs. Shashi and Mrs. Sunita for helping in searching the required books, reprints and journal. I am also thankful to Sh. Madan, Sh. Kishan, Sh. Mahesh Ghosh and Sh. Virender for their help.

Computer and GIS staff: Mr. Rajesh Thapa, Mr. Sukumar, Mr. Lekh Nath, Mr. Virender Sharma, Mr. Dinesh Pundir, Mr. Veerappan and all engineers were very supportive and helped me whenever I approached them. I am thankful to Dr. Manoj Agarwal for RS & GIS support and Dr. Panna Lal and Kerry (WII Researcher) for introducing me to GIS and took so much pain in correcting habitat modeling maps. Many thanks to them to make me familiar with GIS software and whatever I have learnt in GIS because of them. Sh. Virendra Sh. Rajesh Thapa and Sh. Kuldeep for helping me in taking printouts of the thesis. I am also thankful to entire staff of Research Lab and Mr. Vinod Thakur for his help in lab analysis.

I would like to acknowledge Sh. Naveen Singhal for timely processing of my TA/DA claims, Sh. Madan Lal, Sh. Khadak Singh and Sh. Dubey for their entire support in clearing FA bills timely in account section at WII.

My interaction with WII colleagues and friends, Ambica, Neha, Samina, Sangaii, Ngalein, Meena, Parobita, Deep, Tana, Ashi, Chompi, Tapojeet, Merwyn, Abhishek, Kamlesh, Meraj, Annirudh and Shantanu for their cheerful company and all academic support. I would like to especially thank Tirtho for his suggestions in data analysis and my Sariska team members who deserve special thanks from me: Krishnendu, Shubhodeep and Priyanka for their entire support and understanding nature which made my stay peaceful and joyful at WII field station at Sariska.
I would like to thank Dr. Nimmi and Dr. Ruby, my friends outside WII for their encouragement and support throughout my academics.

I am extremely thankful to Sangu – a special friend and an advisor - guided me like mother and sister. Sangu’s husband Dr. Gopi G.V. encouraged and supported me in my difficult times. These two were great source of inspiration for me and my cute little nephew Rudraksh for his lovely smile, whenever I got exhausted.

Now, I owe my deep sense of gratitude to most important peoples in my life my father in the first place, is the person who put the fundamentals in my character, showed me the joy of intellectual pursuit ever since I was a child. This thesis was his dream which I made fulfilled today; My Mother is the one who sincerely raised me with her caring and gentle love; My younger brother Ankit and my elder sister Shweta for being supportive and caring siblings; Angel, my niece; Major Manish; My in laws, without their support this thesis would not have been completed. And Lastly, the most important person whom I admire most, my husband Sachin, I don’t have any words to express my feeling for him, without knowing me much, he walked along with me in fulfilling my dreams with his profound support I am able to complete my thesis.

(Shilpi Gupta)
