Abstract xiii

CHAPTER – I : INTRODUCTION 1 – 11

1.1 Introduction
1.2 Choice of the Region
1.3 Study Area
1.4 Objectives of the Study
1.5 Database and Methodology
1.6 Arrangement of the Text
1.7 Conclusion

CHAPTER – II: PROFILE OF THE OF STUDY REGION 12 – 36

2.1 Introduction
2.2 Location, Situation and Site
2.3 Physiography and Drainage
2.4 Geology
2.5 Types of Soil
2.6 Climate
2.7 Natural Vegetation
2.8 Transportation
2.9 Weekly Market Centres
2.10 Population Density
2.11 Occupational Structure
  2.11.1 Distribution of Cultivators
  2.11.2 Distribution of Agricultural Labours
  2.11.3 Distribution of Other Workers
2.12 Conclusion
CHAPTER – III : GENERAL LANDUSE PATTERN

3.1 Introduction
3.2 Classification of General Landuse
3.3 Temporal Variations in Landuse
3.4 Spatial Variations in Landuse Pattern
  3.4.1 Net Sown Area
  3.4.2 Land not Available for Cultivation
  3.4.3 Cultivable Waste
  3.4.4 Fallow Land
  3.4.5 Forest
3.5 Conclusion

CHAPTER – IV: AGRICULTURAL LANDUSE PATTERN

4.1 Introduction
4.2 Temporal Variations in Agricultural Landuse
4.3 The Spatial Analysis of Agricultural Landuse
  4.3.1 Distribution of Jowar
  4.3.2 Distribution of Wheat
  4.3.3 Distribution of Bajra
  4.3.4 Distribution of Sugarcane
  4.3.5 Distribution of Fodder Crops
  4.3.6 Distribution of Oilseeds
  4.3.7 Distribution of Pulses
  4.3.8 Distribution of Fruits
  4.3.9 Distribution of Vegetables
4.4 Conclusion

CHAPTER – V : CROP COMBINATION AND DIVERSIFICATION REGIONS

5.1 Introduction
5.2 Crop Ranking
  5.2.1 First Ranking
  5.2.2 Second Ranking
  5.2.3 Third Ranking
  5.2.4 Fourth Ranking
  5.2.5 Fifth Ranking
  5.2.6 Sixth Ranking
  5.2.7 Seventh, Eight, Ninth and Tenth Ranking
5.3 Crop Combination Regions
5.3.1 Monoculture
5.3.2 Two crop Combination Regions
5.3.3 Three Crop Combination Regions
5.4 Crop Diversification Regions
5.5 Conclusion

CHAPTER – VI: AGRICULTURAL PRODUCTIVITY 100 – 118

6.1 Introduction
6.2 Enyedi’s Productivity Index
6.3 Productivity of Jowar
6.4 Productivity of Wheat
6.5 Productivity of Bajra
6.6 Productivity of Sugarcane
6.7 Quantitative Evaluation of Landuse
6.8 Correlation Analysis
6.9 Result of correlation co-efficient
   6.9.1 Net Sown Area
   6.9.2 Area under Jowar
   6.9.3 Area under Wheat
   6.9.4 Area under Sugarcane
   6.9.5 Irrigated Area
   6.9.6 Population Density
   6.9.7 Agricultural Density
6.10 Conclusion

CHAPTER – VII: SUMMARY AND CONCLUSION 119 – 134

7.1 Summary
7.2 Problems and Strategy
   7.2.1 Northern part of the Baramati tahsil
   7.2.2 Southern part of the Baramati tahsil
7.3 Suggestions
7.4 Concluding Remark

References 135 – 142
