PART - [A]

HPLC METHOD DEVELOPMENT AND VALIDATION OF SOME PHARMACEUTICAL FORMULATIONS

Introduction
1. Importance of drug analysis 01
2. History of chromatography and HPLC 02
3. Modern high performance liquid chromatography 03
   3.1 Introduction to HPLC methods of analysis for drugs 09
   3.2 Method development and design of separation method 11
   3.3 Separation mode of HPLC 15
4. Analytical method validation 17
   4.1 Strategy for the validation of methods 18
   4.2 Parameters for method validation 19
   4.3 Prior steps of validation 23
5. Objective 23
6. References 24

Section-1
Method development and validation for assay and content uniformity determination of lercanidipine hydrochloride from its pharmaceutical dosage form

1. Introduction of drug 26
2. Literature review 27
3. Aim of present work 28
4. Experimental 29
5. Results and discussion 32
   5.1 Development and optimization of the HPLC method 32
   5.2 Degradation study 34
   5.3 Method validation 36
Section-2
Method development and validation of combine dosage form of atenolol and lercanidipine hydrochloride in tablets

1. Introduction of drugs 71
2. Literature review 71
3. Aim of present work 74
4. Experimental 75
5. Results and discussion
   5.1 Development and optimization of the HPLC method 77
   5.2 Degradation study 78
   5.3 Method validation 81
6. Calculations and data 93
7. References 113

PART - [B]

UPLC METHOD DEVELOPMENT AND VALIDATION OF SOME PHARMACEUTICAL FORMULATIONS

Introduction
1. Introduction of UPLC 114
2. References 119

Section-1
Method development and validation study of combine dosage form of aspirin, clopidogrel bisulphate and atorvastatin calcium in capsule

1. Introduction of drugs 120
2. Literature review 122
3. Aim of present work 130
## Section-2

**Method development and validation study of six drugs used for combined hypertension therapy**

1. Introduction of drugs  
2. Literature review  
3. Aim of present work  
4. Experimental  
5. Results and discussion  
   5.1 Development and optimization of the UPLC method  
   5.2 Method validation  
6. Calculations and data  
7. References

**Summary**

**Publications/Presentations**

**Conferences/Seminars/Workshops**
