The research work embodied in this thesis entitled “Oxidations and Syntheses of N/O-Containing Heterocycles Using Ionic Liquids, Water and PEG-400 as Green Media” has been carried out in the Research Laboratory of Prof. J. M. Khurana, Department of Chemistry, University of Delhi. The extent of information derived from the existing literature has been indicated in the body of the thesis at appropriate places with the source of information. The work is original and has not been submitted in part or full for any degree or diploma of this or any other University.
