ACKNOWLEDGEMENTS

With the blessing of God let me write that the source of honors for the completion of the work embodied in the present thesis is due to numerous persons by whom I have been inspired and helped by many ways.

First of all I would like to express my sincere gratitude to my research guide Prof. Anamik Shah for accepting me as his research student and who made this research a success. Prof. Shah’s enthusiasm and integral view on research combined with his willingness to provide quality chemistry and not less that kept me going and I wish to say thank you for showing me this way of research. Besides being a wonderful Supervisor, Prof. Shah is very good friend and I am deeply honored to have known him in my life. I wish to say thank you so much again Prof. Shah for all the help you offered over the years both in and out of my academic life. It is with no doubt that without your help I would not be where I am now and where I will in future.

I would like to express my feelings of gratitude to Prof. P. H. Parsania, Head, Department of Chemistry, for providing adequate infrastructure facilities in carrying out research work.

I am also thankful to Dr. Y. T. Naliapara, Dr. V. H. Shah, Dr. H. S. Joshi, Dr. S. H. Baluja, Dr. M. K. Shah, Dr. U. C. Bhoya and Dr. R. C. Khunt for their constant support.

I pay my homage and devote my emotions to my parents without their blessing this task would not have been accomplished. I bow my head with utter humility to them for their continuous source of energy, inspirations, and motivation. I would also thank my brother Pratik for his help and advises as a brother as well as a junior, throughout the course of my studies.
I would like to reserve a special line for my fiancée Mital for her unwavering love, understanding and constant support which have made my life a wonderful experience to live, her continuous supports encourage me to be the best that I can be.

Words are inadequate to thanks my dearest friends Dr. Nilay, Hardev, Shailes, Shrey, Dhairya, Punit, Vaibhav, Ketaki, Abhay, Ashish, Manisha, Jignesh, Bharat, Bhavin, Ravi, Sachin, Dipak, Dilip, Paresh, Krunal, Vishwa and Sabera who were always with me and helping me in all situations.

My special thanks and lots of love to my analytical research group. I would like to thank Dr. Rakshit, Harshad and Hitesh for constant help and support.

I cherish the affection and help rendered by my best friends like Savan, Shreedher and Dr. Asha who ever stood beside me with their helping hands and moral support in my life.

I am also thankful to my colleagues Piyush, Mahesh, Anil, Vipul, Govind, Rambhai, Kapil, Renish, Bhavesh, Naimish, Amit, Suresh, Jignesh, Lina, Pooja, Ritesh, Ashish and Kataria.

I am also very much thankful to Mr. Ashok Dave, Mr. Arun Dave, Mr. Prakash Thakkar, and Mr. Darshan Mehta, Parth Laboratories Pvt. Ltd., Rajkot, for providing constant help and technical support.

I am thankful to “National Facility For drug discovery through new chemical entities development and instrumentation support to small manufacturing pharma enterprises” for providing necessary instrumental facilities.
Lastly I would like to thank each and every one of them who helped me directly or indirectly during this wonderful and lots of experience gaining journey. I once again bow my head before almighty to facilitate me at every stage of my dream to accomplish this task.

Rajkot
