ACKNOWLEDGEMENT

My first word of sincere gratitude of course goes to my guide Dr. M.J. Umapathy, Ph.D., Lecturer in chemistry, Dept. of Chemistry, Anna University whose constant support, guidance valuable suggestions helped me in every step of shaping out my field of investigation. I profusely thank him for the opportunity that he gave me to work with him.

I am highly indebted to Dr. S. Nanjundan, Professor and Head, Department of Chemistry, Anna University for his suggestion and help for the successful completion of my work.

It also gives me immense pleasure to record my heartiest thanks to Dr. Banumathi Arabindoo, former Professor & Head and Dr. B. Sivasankar, Professor, Department of Chemistry, Anna University, for their encouragement and kind help during the course of my work. My sincere and heartfelt thanks to Dr. V. Murugesan and Dr. K. Shanthi for their honest suggestions.

I also thank T.G. Sunitha and M. Vajjiravel research scholars of the Department of Chemistry, Anna University, for their ideas and helping hands. Thanks to all friends especially M. Mahalakshmi research scholar Department of Chemistry, Anna University, for supporting my wild ideas always.

I would like to thank my parents who have been a constant source of support and inspiration and whose love, affection and blessings have made it possible to complete this work. I am also thankful to my sister Mrs. Ezhil Murali for her kind support and necessary help to carry out the research work successfully.

S. SAVITHA
