ACKNOWLEDGEMENTS

More than a personal enrichment experiment as a professional this work brought along a big enrichment as a person with lots of new friends that I will never forget. For all that contributed to this period of my life, my deepest gratitude is due.

A special thanks to Dr. Kisan M. Kodam, my supervisor who greatly enriched my knowledge and constantly inspired me and who, in my pursuit of this thesis, had to sacrifice many of his precious hours. He has been able to skillfully manage this research without forgetting the ever essential human relationships. From deep inside I thank him and his family for their opportune support and help.

I am thankful to Prof. Madhurima Dikshit, Head, and Prof. R. S. Kusurkar, former Head, Department of Chemistry, University of Pune, Pune, for providing the facilities of the department to carry out the research work. My overwhelming thanks go to Dr. Yogesh Shouche, Dr. Milind Patole and Dr. W. N. Gade for their support during the completion of this work and for providing all possible laboratory facilities to carry out the experimentation.

I would like to extend my thanks to Prof. V. S. Ghole, Prof. K. R. Gawai, Dr. P. M. Gurao, Dr. S. S. Adav and Dr. S. B. Waghmode for their precious directions and moral support during the completion of research work and whose suggestions were always useful to me.

I would like to offer my heartfelt thanks to Mrs. and Mr. Shailesh M. Joshi and his family members who enabled me to pursue my academic dream and who have contributed to make my stay very pleasant. They were inextinguishable source of encouragement when things did not go so well. Thanks for their unconditional and invaluable support and heartfelt help.

I would like to thank all the members of the laboratory, Ashwini, Vijay, Sharwari, Sandeep, Sharad, Sanjay, Laxmi, Shinde, Ila, Banin, Sucheta for their invaluable help and encouragement.

To my best friends, Anirudha Kakade, Vijay Kasture, Chetan Oturkar, Raju Mane, Sudesh Kulkarni, Rajendra Patil, Arvind Korwar, Shrikant Pawar and Pallavi Konde, my special gratitude are indebted for their friendliness, help and other useful discussions about work.

I take this opportunity to thank all the teaching and non-teaching staff of the department. I also thank staff of Shimadzu Analytical Centre for their technical support. I
also take this opportunity to thank all those who knowingly unknowingly helped me during my research work. I am thankful to University Grants Commission (UGC), New Delhi for the award of Research fellowship.

A special mention to my parents who through thick and thin were always there for me and never doubted my abilities to achieve my goals. Papa Yogita, Rakesh, Vishalrao, Om, thanks for their constant support and enthusiasm.

All these thanks are, however, only fraction of what is due to Almighty for granting me an opportunity and strength to successfully accomplish this assignment.
