ACKNOWLEDGEMENTS

I am greatly indebted to Dr. Nagaraj, B.N. Professor of Civil Engineering, National Institute of Technology, Calicut for his excellent guidance, support and encouragement throughout this research work. His incredible patience, timely wisdom and counsel, are instrumental in successful completion of the work. Memories of his dedication and selflessness in the research efforts and in his care and concern for students will remain with me for ever.

I am grateful to Dr. G.R.C. Reddy, the present Director and Dr. S.S. Gokhale and Dr. M.P. Chandrasekharan former Directors of National Institute of Technology for permitting me to avail all the facilities of the Institute.

I am thankful to Dr. N.Ganesan, Head, Department of Civil Engineering for extending all the support to carry out the thesis work. I am also thankful to Dr. Vincent Paul, Dr. V.S. Prasad, former Heads, Department of Civil Engineering for their support and encouragement.

I express my sincere thanks to the members of the Doctoral Committee, Dr. K.P. Mohandas, Dean (PGS & R), Dr. S. Chandrakaran, Professor, Deptment of Civil Engineering, Dr. Abraham T. Mathew, Professor, Department of Civil Engineering and Dr. Jessy John, Assistant Professor, Department of Mathematics, for their valuable suggestions.

I am thankful to many of my colleagues, not only in the Department of Civil Engineering but also from several other departments, who have extended their helping hand during the course of the work. I would be failing in my duty if I do not
mention the assistance, support and encouragement I have received from my
colleague Dr. A.P. Shashikala.

I am thankful to many of the peers in the field of Transportation Engineering for their
useful suggestions at different time points of this thesis work. It is rather difficult to
name all of them as the list could be very lengthy and the order in which they have to
be cited may not correctly reflect the extent of help and advices tendered by them.

I sincerely acknowledge the help I received from many of the students of Traffic &
Transportation Planning section. I express my sincere thanks to Mr. Siju for his
support and cooperation all the time. Thanks are due to several persons who directly
or indirectly have extended support and encouragement at various stages of work.

I respectfully acknowledge the affection and help received from parents and brothers
for the successful completion of the work. I am thankful to my wife Ms Anasuya and
children Mr. Ravikrishna and Ms. Vishnupriya for their forbearance, understanding
and patience during the period of research work.

(Matha V.L.R. Anjaneyulu)
