**Acknowledgments**

This work would not have been possible without the kind support, input, collaboration and encouragement from a number of people with whom I have interacted from time to time. Although I risk forgetting some names - my sincere apologies - the following is an attempt to gratefully remember each of them.

My heartfelt thanks to...

Dr. Imran Siddiqi for his outstanding guidance, timely assistance and constant support throughout the period of my research. I am extremely grateful to him for allowing me to work without restraints throughout these years and his trust in my abilities.

Dr. Lalji Singh, Director CCMB, for providing a comfortable working environment and unmatched research facilities set up at CCMB.

The people who worked behind the genetics group, both the faculties and other members, for making it such a wonderful platform to present and discuss my research work.

Dr. Ramesh Sonti and Dr. Jyotsna Dhawan for their support and suggestions during the course this work.

Jose, Soji and Aneesh for their invaluable company, cooperation and selfless support in times of need, which I can never forget. Friends like them are hard to find, and there I am the luckiest. I am really short of words to express my gratitude towards them.

My seniors Jagreet and Venkat for their assistance during my early days in the lab:

Ravi, Jose, Mohan, Bindu and Seb for their wonderful company and cooperation, both in and out of the lab: Without their help and
collaboration this work wouldn't have been possible. I deeply appreciate their efforts in promoting a stimulating and welcoming academic and social environment in the lab that will stand as an example to those that succeed them. I greatly acknowledge Bindu and Seb for critical reading of the thesis.

My batchmates, Aneesh, Arvind, Abhay, Hina, Mohan, Nagabhushanam, Satish, Shaheen, Sirisha, Rakesh, Uma and Vineet for their boundless support, affection and suggestions during these years. I enjoyed each moment that I have spent with them, no matter what, science, food, movies, outdoor and everything else. My special thanks to Aneesh for being instrumental in organizing Monday night seminars to discuss each other's research.

Prethish, Vineesh, Nisha and Anju for their wonderful company. Those days were fun when Nandanore joined Tulado to fight against vile forces of Azeroth. I have enjoyed the role of co-chef along with Vineesh during many of those mallu events that we organized. I cheerfully reminisce the friendship with Nisha and Anju, though I have known them for a short time.

Subbaiah, Vijay, Mallika, Jayesh and Dipesh for their help and support in the lab.

Guna, Gopal, Hiten, Vishnupriya, Prabhu, Srinath, Ameena, Anil, Amit, Hardik, Deepika, Dipanwita, Alok, Aparna, Sreenivas, Madhumita, Ashish and all other members of the east wing II floor for their help, cooperation and friendliness.

My Malayali friends, Suneesh, Bony, Gibbence, Jedy, Deepu, Jobin, Soumya, Sujatha, Harish, Subhash, Apoorv, Rajesh, Rajesh master, Bobby, Jisha, Shiju, Celia, Keerthi, Geetha, Sindhu, and Suchitra. With them around home was never so far.
Aneesh Goyal, Narneet, Senthil, Sahasranshu and other CCMB friends for maintaining a smooth and friendly atmosphere throughout these years.

Anand, Bhaskar and Hanumanth for their help and support in the lab.

Dr. NM Rao, Ms. Anuradha and other members of CCMB-JNU academic council for their assistance in matters related to thesis.

All the staff of Administration, instrumentation, reception, fine biochemicals, transport, canteen, hostel, security and other supporting staff for their service and support in maintaining an excellent research atmosphere in CCMB.

Mr. Divakar and other library staff for their help in collecting references.

Mr. Mahalingam for his assistance with final stages of uploading the lab website.

Junior and Senior Research Fellowships from Council of Scientific and Industrial research (CSIR) is greatly acknowledged.

Last, but by no means least, my parents, sister, uncles and grandparents for their unconditional love, constant encouragement, inspirational presence, unequivocal support and sacrifice throughout, for which my mere expression of thanks likewise does not suffice.

With immense pleasure I dedicate this thesis to my parents.
