Chapter-1. General Introduction 001-006

Chapter-2. Review of Literature 007-036

Chapter-3. The culture-dependent diversity of the thermophilic bacteria from the natural hot spring reservoir, Tulasi Shyam, Gujarat, India: Conventional and Molecular Approaches
3.1 Introduction 037-038
3.2 Materials and Methods 039-042
3.3 Results 043-081
3.4 Discussion 082-086

Chapter-4. The culture-independent diversity of the natural hot spring reservoir, Tulasi Shyam, Gujarat, India
4.1 Introduction 087-088
4.2 Materials and Methods 089-092
4.3 Results 093-097
4.4 Discussion 098-101

Chapter-5. The factors affecting the production of amylases
5.1 Introduction 102-103
5.2 Materials and Methods 104-107
5.3 Results 108-131
5.4 Discussion 132-135
Chapter-6. The stability and structural attributes of the thermostable α-amylases from thermophilic bacteria

6.1 Introduction 136-136
6.2 Materials and Methods 137-142
6.3 Results 143-187
6.3.1 Single step purification and characterization of the α-amylase from *Bacillus amyloliquifaciens* TSWK1-1 143-150
6.3.2 Stability and thermodynamic parameters of a thermostable and calcium-independent α-amylase from *A. beppuensis* TSSC-1 151-163
6.3.3 Stability and investigation of the secondary structural changes in the α-amylase from *Bacillus* sp. TSSC-3 164-180
6.4 Discussion 181-187

Chapter-7. A comparative study on the native and immobilized α-amylase of *Bacillus amyloliquifaciens* TSWK1-1

7.1 Introduction 188-189
7.2 Materials and Methods 190-195
7.3 Results 196-203
7.4 Discussion 204-208

Chapter-8. Concluding Remarks 209-214

Chapter-9. Summary 215-221

Conclusion 222-222

Bibliography 223-262

Appendices 263-267

Published Papers
