ACKNOWLEDGEMENT

I would like to express my humble gratitude to the people who have been very helpful to me during the tenure of the research work. In this regard, I honestly admit that there are some helping hands without whose co-operation, help and guidance, this thesis might not have seen the light of today.

First and foremost, I express my heartfelt gratitude and reverence to my supervisor Dr. P. K. Borua, Professor in Life Sciences and Director-in charge, Centre for Tea and Agro-studies, Dibrugarh University, for his inspiring guidance and valuable advice throughout the investigation. He is always with his helping and blessing hands from the beginning to till date. I take this privilege to pay my humblest homage for him.

I extend my thanks and regards to the Head, Department of Life Sciences, Dibrugarh University, for providing departmental facilities as and when required.

My sincere thanks and due reverence are reserved for Prof. R. Samanta and Prof. R.N.S. Yadav, Department of Life Sciences, Dibrugarh University, for their valuable help and co-operation without which, this study would not have been successful.

I owe my heartiest and sincerest thanks to Prof. P. Talukdar as well as Prof. R. N. Sharma, Department of Plant breeding & Genetics, Assam Agricultural University, Jorhat, who have helped me to shape and guide the direction of the work.

This thesis would not have been written and I would not have spent beautiful days at the Department of Life Sciences, Dibrugarh University without the selfless help of Dr. Sailen Phukan, Vice Principal, North Lakhimpur College and Dr. Rupa Phukan, Assistant Professor, Department of Botany, North Lakhimpur college. They stood by me on each and every level of the work during the whole period of investigation. I am very grateful to them for that invaluable support.

I owe my deepest gratitude to Prof. A.K. Rai, Prof. S.P. Biswas, Prof. L.R. Saikia, Prof. D.S. Bora, Dr. B. Neog and Dr. D. Kardong of the Department of Life sciences, Dibrugarh University, for their kind support and co-operation.

I am grateful to all my friends from JCN, Dibrugarh University, for being the surrogate family during the time I stayed there. Special thanks go to Semima, Bulbuli, Archana, Hemakanchan, Ranjita, Mridula and Rakhi. They are the people who pushed
and accompanied me on the way all through. I thank them all for giving me their friendship, as deep and as rich as friendship can be.

I would like to thank Bhabesh, Dimpyba, Munmi, Shristrishri, Aditiba, and Mridulda for helping me get through the difficult times.

I sincerely remember with solemn sense of thanks and gratitude to Ranjit Saikia, Principal, Silapathar Science College, Arpana Das, Dipa Patir and Himu Roy, Assistant Professors, Silapathar Science College for their support and co-operation. I am forever indebted to P.N. Dutta, Assistant Professor, Silapathar Science College, for all the emotional supports and caring he provided and longed to see this achievement come true. I am also deeply thankful for Ranjitda and Rustom who had helped me in collecting seeds by curtailing their valuable times.

Deepest gratitude is also due to all the office staff members of the Department of Life Sciences, Dibrugarh University, who had helped me out with their abilities.

I would not have contemplated this road without the help of my family, specially my mother and father, who also accomplished without complaints the endless errands that I asked them to do, even when they were on the peaks of stress. My solemn and sublime regards always remain with them.

My loves remain with my sweet sisters, Prarthana and Chanyajyoti, brother Hemanga and brother-in-low Udeep who had supported me by lending a helping hand whenever I was in need.

I pay my heartiest thanks, love and respect to all who have helped me directly or indirectly from the beginning to the end of the investigation. There are some supporting people that I might have forgotten. My humblest apologies to them, who consider having earned for themselves being cited amongst these lines.

(Pallabi Dutta)
