ACKNOWLEDGMENTS

I hereby acknowledge my sincere gratitude to our Chancellor Dr. T. R. Pachamuthu, our President Dr. P. Sathyanarayan, our Vice-Chancellor Dr. M. Ponnavaikko, our Director(Engg and Tech) Dr. C. Muthamizhchelvan, our Director (Research and Development) Prof. D. Narayana Rao and other management and administrative authorities of SRM University for their continued support and for providing the amenities and overseas opportunity which really helped me to extend my research and professional experience.

I would like to thank my research supervisor, Dr. T. Rama Rao, Head, Department of Information and Telecommunication Engineering, SRM University for his persistent support and caring suggestions in steering me through this research process. I sincerely thank him for encouraging me in all aspects and directing me in the correct path to develop myself as an excellent researcher.

I express my special thanks to Prof. Bhaskar Krishnamachari, University of Southern California who happens to be my academic host during my visit as a short term research scholar. Under his supervision, I have been trained in wireless sensor networks and learned some meticulous research practices. I also thank him for indirectly motivating me in learning new softwares which aided me to enhance my research skills. It is indeed a great respect to be associated with him and his ANRG group whose feedbacks had helped me to improve the quality of my research work.

Also, I would like to convey my sincere thanks to all my doctoral committee members Dr. T. Rama Rao, Dr. Rhymend Uthariaraj, Dr. B. Ramachandran, Dr.
Sundarammal Kesavan and Dr. S. Malarvizhi for their stimulating query and critical comments that assisted me to improve this research work.

I also express my gratitude to the Defence Research Development Organization for providing financial support to this research under grant no: IP/ER/0803748/M/01/1189. Special thanks are due to Dr. N. Rama Murthy, Head, Signal Processing Group, Centre for Artificial Intelligence and Robotics Lab, Bangalore for sharing his expertise, providing critical reviews and astute suggestions while conducting the test bed experimentations.

I owe my cordial respect to Dr. E. Poovammal, Head, Department of Computer Science and Engineering, and my gratitude to my friends Prof. C. Lakshmi, Head, Department of Software Engineering, Mrs. Revathi and T. Manoranjitham for their honest support and timely help. My special thanks to G. Senthilkumar, AP (SG), CSE and Dr. Parvathi,Professor, Maths Dept for their valuable guidance on mathematical concepts.

I would like to present my sincere thankfulness to all my Department colleagues for their valuable suggestions and encouragement. Finally, I appreciate my mother and my husband for their tremendous support and back-up throughout this process.
